Categories:

- 1: Combating Rural Crime**
- 2: Improving Rural Law Enforcement Investigations**
- 3: Enhancing Rural Detention and Jail Operations**
- 4: Facilitating Rural Justice Information Sharing**
- 5: Training and Technical Assistance**

State	Project Summary	Category
<u>KS</u>	<p><u>City of Burden - \$117,253</u></p> <p>The city of Burden, in conjunction with the Burden Police Department, will receive a \$117,253 grant for the police department to create a Journeyman Tracker Team that will be certified to gather admissible courtroom evidence and provide expert testimony concerning the scene of a crime.</p> <p>Burden is a rural area where illegal methamphetamine production is a prevalent crime. Much of the methamphetamine is produced in fields, abandoned houses, and cars located in secluded areas. Journeyman Trackers have the ability examine production evidence, gather important clues, and track individuals involved in illegal methamphetamine production. By increasing the number of Journeyman Trackers, the Burden Police Department will be better able to combat illegal drug activity in their area.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>AZ</u></p>	<p><u>Navajo Nation Judicial Branch - \$1,362,906</u></p> <p>The Navajo Nation Judicial Branch, on behalf of the Office of the Chief Justice of Probation Services, in partnership with the Department of Corrections, Office of the Chief Prosecutor, Office of the Public Defender, Division of Social Services, and Department of Behavioral Health will receive a \$1,326,906 grant to form the Navajo Nation Nábináhaazláago Initiative to provide comprehensive services to adolescents in Navaho juvenile detention centers and will emphasize fairness, mutual respect, and shared responsibility.</p> <p>Adolescents housed in Navajo juvenile detention centers lack access to risk and needs assessments, treatment and educational services, and positive modern or traditional Navajo programming because of lack of resources. The centers are also unable to provide reentry services or aftercare for adolescents who are released from detention centers. Although actual recidivism data does not exist, anecdotal evidence says that there are high rates of recidivism among Navajo juvenile offenders. With funding through this grant, the initiative will ensure that adolescents in Navajo juvenile detention receive necessary assessment, services, and treatment. Funding will allow the initiative to hire individuals who can gather research and information to develop functional, collaborative plans for detention, probation, aftercare, and monitoring programs, as well as individuals who can collect and distribute information among collaborating agencies. The grant will also provide funding to hire probation case managers and officers to provide needed services to detained adolescents, as well as technicians to provide support to the officers and the program.</p>	<p>Category 1</p>
-------------------------	--	-------------------

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NE</u></p>	<p><u>Nebraska Attorney General - \$696,907</u></p> <p>The Nebraska Attorney General will receive a \$696,907 grant for the Attorney General's Office (AGO) to combat cybercrimes in Nebraska, especially in its rural counties, by expanding the AGO's Cybercrime Unit.</p> <p>The majority of Nebraska's rural counties are served by understaffed and underfunded law enforcement agencies that lack adequate technology to investigate or prosecute cybercrimes. While the Nebraska State Patrol has received funding to combat internet crimes against children, their resources are spread thin and concentrated in urban centers. By expanding its Cybercrime Unit, the AGO aims to focus on fighting cybercrimes in rural Nebraska counties. Funding will be used to retain one investigator, hire an additional investigator, and hire a prosecutor to work with this unit. AGO will also use funding to furnish the unit with needed technology and equipment. With additional staff and equipment, the Cybercrimes Unit will be able to establish investigative and prosecutorial protocols, establish communications among other agencies combating cybercrimes, increase the number of trained cybercrimes investigators and prosecutors, and increase the number of investigations, arrests, seizures, and prosecutions of cybercriminals.</p>	<p>Category 1</p>
-------------------------	---	-------------------

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>ID</u></p>	<p><u>Madison County - \$189,407</u></p> <p>Madison County, in conjunction with the Madison County Sheriff's Office, will receive a \$189,407 grant to combat crime in eastern Idaho. The sheriff's office would use grant money to fund an additional full-time officer and to purchase a vehicle and necessary equipment for the new hire. This additional officer would be assigned to patrol local, state, and federal roadways to combat impaired driving and drug offenses on roadways in rural Nebraska. Funding from this grant would also allow the officer's vehicle to be equipped with a mobile computer and license plate reader.</p>	<p>Category 1</p>
<p><u>WA</u></p>	<p><u>Nooksack Indian Tribe - \$468,516</u></p> <p>The Nooksack Indian Tribe (NIT) will receive a \$468,516 grant to combat this drug-related crime and violence. NIT is located in rural Whatcom County and has a small staff of officers employed in the NIT Law Enforcement Agency. NIT also falls within a High Intensity Drug Trafficking Area and has seen an increase in drug-related crime and violence. Because of the small number of law enforcement officers, NIT cannot effectively combat this drug-related crime and violence. The NIT Law Enforcement Agency will use grant funding to create a position devoted for half of the time to patrol officer duties and the other half of the time to investigating crimes, and collaborating and coordinating information sharing with other agencies. Funds will also be used to hire clerical support and data control personnel to assist the officer combating crimes and violence involving drugs and alcohol.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MN</u></p>	<p><u>City of St. James - \$173,772</u></p> <p>The City of St. James, in conjunction with the St. James Police Department, will receive a \$173,772 grant to combat narcotics and gang-related crime and violence. The Minnesota River Valley Drug and Gang Task Force (MRVDTF) typically assigned an agent to the St. James area to assist local law enforcement in combating crimes. Because of budget cuts, this position has been eliminated. Through grant funding, St. James Police Department will hire an investigator to concentrate on drug- and gang-related crime and violence. This investigator will be able to assist the MRVDTF with ongoing activities and investigations to combat drug and gang-related crimes in St. James and the surrounding area.</p>	<p>Category 1</p>
<p><u>AZ</u></p>	<p><u>Tohono O’odham Nation - \$394,724</u></p> <p>The Tohono O’odham Nation, in conjunction with the Tohono O’odham Police Department (TOPD), will receive a \$394,724 grant to increase its intelligence-led policing (ILP) efforts to combat drug trafficking operations.</p> <p>A portion of the U.S./Mexico border lies within the Tohono O’odham Nation and the TOPD partnered with U.S. Customs and Border Patrol to assist with border protection and combat drug trafficking activities. Because of these services, TOPD has been unable to support its ILP efforts, combat drug-related crimes within the nation, and participate in local information-sharing programs. The department will use funding to hire an intelligence analyst and purchase needed equipment in an effort to enhance their ILP and data-driven strategies. By increasing ILP and data-driven strategies, the department will also be better suited to participate in justice information sharing, collaboration, and problem solving with other local, state, federal, and tribal agencies.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MO</u></p>	<p><u>Ellington - \$171,886</u></p> <p>The City of Ellington, in conjunction with the Ellington Police Department, will receive a \$171,886 grant to reduce drug-related crimes and increase solve-rates for these types of crimes. Ellington has seen an increase in the amount of drug-related crime and violence, but lacks personnel and equipment to combat these types of crimes. The department will use funds to hire an additional investigator to assist with investigation of drug-related crimes and cases. Funds will also be used to purchase an evidence collection vehicle and necessary investigative and evidence collection equipment. By using funds this way, the department will be better suited to reduce drug use/abuse, reduce drug-related crime and violence, and increase the department's solve-rates of drug-related crimes.</p>	<p>Category 1</p>
<p><u>WA</u></p>	<p><u>2009-G2374-WA-SD The Suquamish Tribe - \$234,836</u></p> <p>The Suquamish Tribe, in conjunction with the Suquamish Police Department will receive a \$234,836 grant to hire a narcotics detective.</p> <p>Illegal drug activity and related crimes have become a significant problem for the Suquamish Tribe. Adding to this problem is the fact that the tribal police have not been able to afford to hire a narcotics detective. Funding from this grant will be used to hire a narcotics detective for the Suquamish Police Department. This detective will be able to focus on drug-related crimes and investigations. Additionally, the detective will be a central point for coordinating resources.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>LA</u></p>	<p><u>St. Martin Parish Sheriff's Office - \$707,951</u></p> <p>The St. Martin Parish Sheriff's Office (SMSO) will receive a \$707,951 grant to create a multiagency, multijurisdictional team whose mission will be to combat drug activity and drug-related crime in the local communities. While SMSO does have a narcotics unit that focuses on drug-related investigations, it does not have funding to support a street-level team to address street-level drug activity and drug-related crime and violence. Through grant funding, the sheriff's office will be able to create the Street Level Interdiction and Crime Enforcement Unit. This multiagency, multijurisdictional unit will have four new officer positions, a unit supervisor position, and a crime analyst position. In addition, this unit will take an intelligence-led policing approach to combating drug-related crime and violence by collecting and disseminating crime data. As a result, SMSO will be better able to combat drug activity and drug-related crime and violence in the community.</p>	<p>Category 1</p>
<p><u>OR</u></p>	<p><u>Coos County - \$542,054</u></p> <p>Coos County, in conjunction with the South Coast Interagency Narcotics Team (SCINT) will receive a \$542,054 grant to develop effective strategies to investigate and reduce illegal narcotics activity. Coos County has seen an increase in illegal narcotics activity over the past several years. Most of the area's drug activity centers around the production and sale of methamphetamine. SCINT needs to take a proactive approach to combat this drug activity and drug-related crimes. Through grant funding, SCINT will hire additional unit members to create a strong, active team to combat drug activity and related crimes. SCINT will also use funding to enhance its community education programs and its information sharing and collaboration capabilities. All of these activities will</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	further the goal of combating drug activity and related crimes, especially the production and sale of methamphetamine.	
<u>FL</u>	<p><u>Wakulla County Sheriff's Office - \$608,222</u></p> <p>The Wakulla County Sheriff's Office (WCSO) will receive a \$608,222 grant to increase the number of successful investigations of drug-related crimes and to reduce the number of juvenile drug, alcohol, and gang-related offenses. Wakulla County has seen an increase in drug-related crimes among all age groups. The county has also seen an increase in underage drinking and an increasing crime rate for juvenile offenders, especially gang-related juvenile offenses. WCSO will use grant funding to fund an additional investigator for the narcotics unit, which will allow the office to increase its number of successful investigations of drug-related crimes. The sheriff's office will also use grant funding to create a new juvenile division, which will provide openings for a director and a programs specialist who will oversee juvenile programs and activities to deter adolescents from gang activity, underage drinking, and other offenses. This division will also retain two school resource officers, who will work with the school board to implement outreach and educational programs in local elementary, junior high, and high schools.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>WI</u></p>	<p><u>Menominee County Sheriff's Department - \$470,972</u></p> <p>The Menominee County Sheriff's Department will receive a \$470,972 grant to reduce crime and increase protection of persons and property. Menominee County has a high crime rate, with many of the crimes committed stemming from drug activity and alcohol. The sheriff's department will use grant funding to hire additional personnel to combat drug- and gang-related activity in the community. The department would also use funding to update its technological information-sharing capabilities and provide law enforcement officers with means to access this database. Additional personnel and improved technological equipment and access will allow the department to be better able to prevent and respond to crimes in their community.</p>	<p>Category 1</p>
<p><u>OH</u></p>	<p><u>Putnam County Sheriff's Office - \$703,201</u></p> <p>The Putnam County Sheriff's Office will receive a \$703,201 grant to increase the number officers it employs. Because of budget cuts, the sheriff's office has been forced to lay off several law enforcement officers. This reduction in manpower has forced the office to cut back on security at the Putnam County Courthouse and the number of officers working with the Multi-Area Narcotics (MAN) unit. This has lead to an increase in drug-related activity and crime in the county and creates an unsafe situation for judges and other courthouse employees. The sheriff's office will use grant funding to reinstate law enforcement officers who have been laid off because of budget cuts. Bringing these officers back to work will allow officers to return to work with the MAN unit and provide security to the county courthouse. It will also enhance the safety and security of Putnam County citizens.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WA</u>	<p><u>Squaxin Island Tribe - \$261,357</u></p> <p>The Squaxin Island Tribe, in conjunction with the Squaxin Island Public Safety and Justice Department will receive a \$261,357 grant to combat drug activity and crime. The Squaxin Island Tribe and surrounding Mason County have seen an increase in drug and alcohol-related crime over the past 10 years. To help combat drug activity and related crimes, the tribe has become a member of the Mason County Special Operations Group (SOG), which works to reduce drug-related crime in Mason County and the surrounding area. The tribe will use funding to hire a law enforcement officer who will focus on combating drug activity within the Squaxin community. This person will also work with Mason County SOG to assist with combating illicit drug trafficking within the tribal community and the surrounding county.</p>	Category 1
<u>WI</u>	<p><u>Manitowoc - \$177,590</u></p> <p>The City of Manitowoc, in conjunction with the Manitowoc Police Department, will receive a \$177,590 grant to combat prescription drug abuse. Manitowoc and the surrounding county have seen a significant increase in prescription drug abuse over the past several years. The Manitowoc County Metro Drug Task Force was created 20 years ago to combat drug trafficking, drug use, and related criminal activities in the community. The Manitowoc Police Department will use grant funds to hire a detective who will be assigned to work with the Drug Task Force. With additional manpower, the task force will be better able to combat drug activity and drug-related crime using intelligence-led policing strategies and collaboration efforts.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>NM</u>	<u>Pueblo of Pojoaque - \$303,304</u> The Pueblo of Pojoaque, in conjunction with the Pojoaque Tribal Police Department, will receive a \$303,304 grant to combat drug activity and drug related crimes in the Pueblo of Pojoaque. This small community has seen a drastic increase in the number of individuals with substance abuse problems over the past several years. This area has also been designated as a high-intensity drug trafficking area. The drug activity has also lead to an increase drug-related crime and violence. With funding from this grant, the police department will hire two investigators who will be tasked with combating drug activity and drug-related crime in the Pueblo of Pojoaque. The department will also establish an anonymous hotline where community members can report suspicious activity. In addition, the department will focus on educating the community about drug activity and the necessity of community involvement in combating drug activity. The department will also enhance collaboration and information sharing efforts with outside law enforcement and drug task forces.	Category 1
------------------	---	------------

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MI</u></p>	<p><u>Roscommon County - \$437,624</u></p> <p>Roscommon County, in conjunction with Richfield Township, will receive a \$437,624 grant to interrupt illicit drug trafficking and reduce drug abuse in the community. Roscommon County participates in the Strike Team Investigative Narcotics Group (STING), which is a multiagency, multijurisdictional narcotics task force. Roscommon County and Richfield Township will use grant funding to hire three officers who will be assigned to work with STING. These officers will assist STING in combating drug trafficking and drug-related crimes through interstate and highway patrol and interdiction. These officers will also participate in information sharing programs by loading information gathered during patrol and arrests into the countywide intelligence system. Additional officers working with STING will allow Roscommon County and Richfield Township to combat drug activity and related crime in their community.</p>	<p>Category 1</p>
<p><u>GA</u></p>	<p><u>Evans County - \$498,248</u></p> <p>Evans County, in conjunction with the Evans County Sheriff's Office, will receive a \$498,248 grant to prevent drug and gang activity and other criminal activity. Evans County has seen an increase in criminal activity and juvenile offenses in the past several years. Drug abuse and drug-related crimes and violence have also been steadily increasing; and there has been a surge in juvenile gang activity. The Evans County Sheriff's Office is understaffed and is able to provide only reactive action in calls for service. The sheriff's office plans to use grant funds to create a multiagency and multijurisdictional unit that will promote community involvement, collaboration, and information sharing to combat criminal activity in Evans County. Funds will be used to hire additional law enforcement officers and an intelligence analyst. Funding will also be used to implement a database that will allow law enforcement officers and the analyst</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	to track complaints, criminal activity, drug-related activity and crime, and illegal gang activity. This database will also enable officers and the analyst to collaborate and share information with other agencies collaborating with the Evans County Sheriff's Office. These implementations will reduce drug and gang activity and other criminal activity in Evans County and allow for a safer community for its citizens.	
<u>NM</u>	<p><u>New Mexico Attorney General's Office - \$678,880</u></p> <p>The New Mexico Attorney General's Office (NMAGO), in conjunction with the Border Violence Division (BVD), will receive a \$678,880 grant to combat human trafficking and increase their ability to extradite or pursue foreign prosecution of individuals who have committed state offenses and fled to other countries.</p> <p>New Mexico did not designate human trafficking as a state criminal offense until 2008. Because New Mexico has only recently identified this as a criminal offense, there is only a grassroots effort to combat these activities. New Mexico's location on the U.S./Mexico border makes it easier for criminals to flee and avoid arrest and prosecution. Funding from this grant will allow NMAGO and BVD to hire four additional staff to assist with extradition and foreign prosecution efforts of criminals who have fled the country, particularly to Mexico. These four positions will also work to combat human trafficking in New Mexico. To accomplish both of these goals, NMAGO and BVD will enhance their intelligence-led policing strategies to collect, analyze, and share data on crimes and locations of criminals with other federal, state, and local agencies. NMAGO also plans to collaborate with the Attorney General in Chihuahua, Mexico to combat human trafficking and increase extradition and foreign prosecutions of criminals who have fled the United States.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>WA</u></p>	<p><u>Shoalwater Bay Indian Tribe - \$276,135</u></p> <p>The Shoalwater Bay Indian Tribe will receive a \$276,135 grant to increase law enforcement coverage and improve crime data collection, reporting, and sharing with other agencies. Because of insufficient manpower, the Shoalwater Bay Indian Tribe is unable to provide round-the-clock law enforcement coverage for its members. The tribe is also unable to provide adequate training for its current law enforcement staff, and officers do not have access to needed technology for timely data collection, analysis, and sharing that would help them to combat crime in their community. Through grant funding, the tribe will hire an additional officer to help provide adequate law enforcement coverage and will also use grant funding to provide adequate training for current officers and the newly hired officer. Finally, the tribe will use funds to enhance technology that will allow officers to efficiently collect, enter, analyze, and share crime data and statistics with other agencies.</p>	<p>Category 1</p>
<p><u>OH</u></p>	<p><u>Union County - \$134,195</u></p> <p>Union County, in conjunction with the Union County Sheriff's Office (UCSO), will receive a \$134,195 grant to hire personnel and enhance technology and equipment. UCSO has been forced to reduce its budget drastically and to cut several civilian positions. Funding from this grant would be used to reinstate a civilian investigative assistant (IA) position and to enhance needed technology for the IA to complete their duties. In addition, funding would be used to upgrade technology for its investigators. These technological enhancements will allow the sheriff's office to better participate in intelligence-led policing strategies through more efficient methods of data entry, analysis, and sharing.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OR</u></p>	<p><u>Lincoln County - \$264,006</u></p> <p>Lincoln County, in conjunction with the Lincoln County District Attorney's Office, will receive a \$264,006 grant to retain jobs and improve public safety. The economic downturn has forced the Lincoln County District Attorney's Office to reduce its number of personnel, but has also led to an increase in the area's crime rate. Lincoln County will use grant funding to continue to support two staff positions in the district attorney's office. These positions will reduce the burden on prosecutors and support staff in the office. In addition, these positions will allow the district attorney's office to continue to combat the increasing crime rate in the area.</p>	<p>Category 1</p>
<p><u>WA</u></p>	<p><u>Kalispel Tribe of Indians - \$480,890</u></p> <p>The Kalispel Tribe of Indians, in conjunction with the Kalispel Tribe Public Safety Department, will receive a \$480,890 grant to combat increasing crime. With the completion of a casino, the tribe expects to see an increase in crime over the next several years and plans to take a proactive stance to this expected crime increase by hiring additional law enforcement officers now. Funding will also be used to develop an intelligence-led policing strategy that will collaborate and participate in information sharing with other federal, state, and local law enforcement agencies in the area.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WA</u>	<p><u>Pend Oreille County - \$96,510</u></p> <p>Pend Oreille County, in conjunction with the Pend Oreille County Sheriff's Office will receive a \$96,510 grant to restore important personnel. Because of budget cuts, the sheriff's office had to eliminate one communications officer. Funding from this grant will be used to reinstate that officer. This officer will assist with dispatching law enforcement officers and with data entry, analysis, and information sharing with other agencies.</p>	Category 1
<u>CA</u>	<p><u>Nevada City Police Department - \$510,090</u></p> <p>The Nevada City Police Department will receive a \$510,090 grant to fill several positions currently vacant due to budget shortfalls. This has decreased the available manpower in the department and made it difficult for the police department to take a proactive approach to community safety. The Nevada City Police Department will use grant funding to hire additional officers and a records supervisor. The officers will allow the department to take a more proactive approach to crime prevention, while the records supervisor will provide needed support to the officers. In addition, grant funding will be used to offset the cost of furlough hours that employees have been forced to take in order to reduce budget costs.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>TX</u></p>	<p><u>City of Dilley - \$113,000</u></p> <p>The City of Dilley, in conjunction with the Dilley Police Department (DPD), will receive a \$113,000 grant to respond to an increase in gang and drug activity and related crime. The Dilley Police Department will use grant funding to combat gang and drug-related crimes and activity. Specifically, DPD will use funds to hire an investigator who will be able to assist officers working to interrupt human and drug trafficking across the U.S./Mexico border.</p>	<p>Category 1</p>
<p><u>KY</u></p>	<p><u>Commonwealth's Attorney - \$189,557</u></p> <p>The Commonwealth's Attorney of Kentucky, in conjunction with Laurel and Knox Counties, will receive a \$189,557 grant to fight cybercrimes. Laurel and Knox Counties and the surrounding area have seen a drastic increase in the number of cybercrimes, especially those involving minors. Grant funding would be used to hire an Assistant Commonwealth's Attorney to oversee this multiagency and multijurisdictional project aimed at combating cybercrimes by investigating and prosecuting these types of cases. In addition, this project will focus on educating minors about the dangers involved with computers and internet use in order to keep them from becoming the victims of cybercrime.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MN</u></p>	<p><u>Leech Lake Band of Ojibwe - \$792,274</u></p> <p>The Leech Lake Band of Ojibwe, in conjunction with the Leech Lake Tribal Police Department (LLPD), will receive a \$792,274 grant to reduce gang activity and deter violent crime on the Leech Lake Reservation. Leech Lake Reservation has seen a drastic increase in the amount of drug and gang activity and the crime and violence that typically accompany these activities. Using grant funds, LLPD plans to expand its efforts in combating violent crime and drug, gang, and gun crime by hiring two additional investigators. The department will also hire a crime data analyst so that the department can participate in intelligence-led policing strategies. The analyst would assist LLPD to assess current problems and brainstorm about solutions to issues on the Leech Lake Reservation.</p>	<p>Category 1</p>
<p><u>CA</u></p>	<p><u>California Department of Justice - \$1,435,904</u></p> <p>The California Department of Justice (CA DOJ), in conjunction with the Bureau of Investigation and Intelligence (BII), will receive a \$1,435, 904 grant to combat mortgage fraud. As most states, California has seen a drastic increase in the number of foreclosures on families' homes. Many agree that this increase in foreclosures is due to mortgage fraud committed by the lender or underwriter of the loan. To combat the occurrence of mortgage fraud, CA DOJ and BII will expand their investigative support teams. Through grant funding, the department will be able to retain three special agents and two crime analysts. This will allow the department to increase their investigations into allegations of mortgage fraud and will allow them to continue to support collaboration with other federal, state, and local law enforcement agencies also combating mortgage fraud.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MN</u></p>	<p><u>White Earth Reservation Tribal Council - \$649,102</u></p> <p>The White Earth Reservation Tribal Council, in conjunction with the White Earth Tribal Police Department (WETPD), will receive a \$649,102 grant to combat drug- and alcohol-related crime and violence. The area surrounding the White Earth Reservation has seen an increase in drug- and alcohol-related crimes, as well as juvenile offenses and gang activity. WETPD has been unable to expand their services or participate in collaboration projects because of a lack of funding and personnel. Funding from this grant will be used to hire additional investigators and purchase needed equipment. The additional personnel would be able to participate in collaboration projects and assist current officers in their effort to combat alcohol, drug, and gang activity and related crime and violence.</p>	<p>Category 1</p>
<p><u>FL</u></p>	<p><u>Walton County Sheriff's Office - \$818,729</u></p> <p>The Walton County Sheriff's Office will receive a \$818,729 grant to combat increasing criminal activity and drug-related crimes. In the past the county has relied on the Florida Department of Law Enforcement (FDLE) to provide crime scene evidence processing, but with budget cuts FDLE will no longer be able to provide this support to Walton County. The sheriff's office will use funding from this grant to create two of their own crime scene units that will be able to provide evidence processing for crimes committed in Walton County. These crime scene units will create two crime scene analyst positions and two support staff positions. In addition, grant funding will be used to purchase needed equipment for the new crime scene units for Walton County.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>MT</u>	<u>Montana Department of Justice - \$1,230,902</u> The Montana Department of Justice, in conjunction with the Division of Criminal Investigations, Narcotics Bureau will receive a \$1,230,902 grant to create a Drug Diversion Unit. Montana has seen a drastic increase in prescription drug abuse and deaths stemming from it over the past decade. Prescription drug investigations require a particular skill set and training, but many of the officers and investigators working these cases lack adequate training and experience. The Narcotics Bureau will use grant funds to create a Drug Diversion Unit that will be tasked with investigating prescription drug abuse cases and those individuals involved in these types of crimes. The officers and prosecutor assigned to this unit will have adequate training and manpower to combat prescription drug abuse in a community by providing community outreach and education programs, and by investigating and prosecuting crimes throughout the state.	Category 1
------------------	--	------------

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>VT</u></p>	<p><u>Vermont Department of Public Safety - \$130,000</u></p> <p>The Vermont Department of Public Safety, in conjunction with the Vermont State Police, will receive a \$130,000 grant to expand its crime tracking and information sharing capabilities. The Vermont Fusion Center (VTFC) was designated as the state's main center for information and data that directs intelligence-led policing strategies. Because of law enforcement's increasing use of intelligence-led policing strategies, VTFC has been inundated with cases needing intelligence information. The Vermont Department of Public Safety will use grant funds to hire an additional intelligence analyst to assist VTFC in expanding its information and intelligence collection, analysis, and sharing capabilities.</p>	<p>Category 1</p>
<p><u>NY</u></p>	<p><u>City of Norwich - \$288,188</u></p> <p>The City of Norwich, in conjunction with the Norwich Police Department, will receive a \$288,188 grant to create a Detective Bureau for Norwich. The Norwich Police Department does not have a trained plain-clothes detective to conduct investigations. They have had to rely on the Chenango County Sheriff's Office and New York State Police for assistance when a detective is needed for an investigation. With funding from this grant, the police department will be able to hire a detective to assist with investigations.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OH</u></p>	<p><u>Logan County Sheriff's Office - \$224,760</u></p> <p>The Logan County Sheriff's Office will receive a \$224,760 grant to continue to combat crime in Logan County and to increase information sharing capabilities. The Logan County Sheriff's Office has suffered from budget constraints. Several officers have been laid off or reassigned to nonpatrol functions in the office. The sheriff's office has also seen an increase in service calls, which are now being handled by a fewer number of officers. Grant funds will be used to reinstate two officers who have been laid off or reassigned to nonpatrol functions. Reinstating these officers will allow the office more manpower to combat crime. Additional grant funds will be used to increase collaboration and information sharing with other law enforcement agencies.</p>	<p>Category 1</p>
<p><u>IA</u></p>	<p><u>City of Centerville - \$286,380</u></p> <p>The City of Centerville, in conjunction with the Centerville Police Department and the South Central Iowa Drug Task Force (SCIDTF), will receive a \$286,380 grant to combat drug trafficking and drug-related crimes. Many of the criminal activities in Centerville and surrounding south central Iowa are related to illegal narcotics activity. Because of an insufficient budget the task force lacks necessary law enforcement officers. The Centerville Police Department will use grant funds to hire two police officers who will be assigned to SCIDTF. Specifically, these officers will act as undercover/covert officers to gather intelligence, conduct surveillance, and conduct investigations. These officers will be vital to combating drug activity and drug-related crime and violence in south central Iowa.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MO</u></p>	<p><u>City of Warrenton - \$240,354</u></p> <p>The City of Warrenton, in conjunction with the Warrenton Police Department, will receive a \$240,354 grant to combat crime and increase drug-related investigations. Warrenton has seen an increasing crime rate over the past several years. Many of these crimes stem from the increase in drug activity in the area. Crime has steadily increased, but the number of officers with the Warrenton Police Department has not increased at the same rate, therefore the department is in need of more manpower. The police department will use grant funds to hire two additional officers. These additional officers will give the department necessary manpower to combat drug-related crimes through community policing efforts. The police department will also use funds to purchase needed equipment for current and new officers.</p>	<p>Category 1</p>
<p><u>NC</u></p>	<p><u>Town of Bolton - \$600,000</u></p> <p>The town of Bolton, in conjunction with the town of Delco and the Columbus County Sheriff's Department, will receive a \$600,000 grant to create a law enforcement team. The town of Bolton and surrounding areas lack a local law enforcement agency and must rely on the Columbus County Sheriff's Department for service calls. Over the past several years, these communities have seen an increase in crime, including violent crime and crimes committed by juveniles. Bolton will use grant funds to create a multidisciplinary enforcement team that can address these issues and work to reduce and prevent crime in Bolton and the surrounding communities. This law enforcement team will work closely with the Columbus County Sheriff's Department to ensure the team's sustainability. This local law enforcement team will implement an effecting rural policing strategy that can be duplicated in other small rural communities.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>WA</u></p>	<p><u>Pend Oreille County - \$139,710</u></p> <p>Pend Oreille County, in conjunction with the Pend Oreille County Sheriff's Office, will receive a \$139,710 grant to hire personnel necessary for information sharing. The Pend Oreille County Sheriff's Office has a Criminal Justice Information Sharing system with the software and technology in place to participate in intelligence-led policing and information sharing with other law enforcement agencies. What the sheriff's office lacks, however, are the personnel to implement this technology. The sheriff's office will use grant funding to hire an information technology specialist to manage this system. This specialist will take charge of software customization, training, and user support.</p>	<p>Category 1</p>
<p><u>CA</u></p>	<p><u>Siskiyou County Sheriff's Department - \$773,308</u></p> <p>The Siskiyou County Sheriff's Department will receive a \$773,308 grant to implement a collaborative, information sharing approach to combating crime in Siskiyou County. The Siskiyou County Sheriff's Department is responsible for providing law enforcement services for a large area, but lacks adequate manpower to provide essential services. With an increasing crime rate and a decreasing budget, the sheriff's department is being forced to cut essential services. The Siskiyou County Sheriff's Department will use grant funds to create a Criminal Intelligence Task Force comprising 14 officer and civilian positions. This task force will be responsible for improving data and evidence collection, analysis, and dissemination within the county. This task force would also implement and enhance collaboration with neighboring law enforcement agencies. Additional officer positions, information sharing, and collaboration would all help the department to combat crime and serve the community.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MI</u></p>	<p><u>City of Newaygo - \$178,620</u></p> <p>The City of Newaygo, in conjunction with the Newaygo Police Department and Newaygo County Sheriff's Office will receive a \$178,620 grant to combat crime on the Muskegon River. Newaygo County is bisected by the Muskegon River, which provides many recreational activities to the community and to tourists. The Newaygo Police Department lacks funding and personnel to police the river, and so a good deal of crime that occurs on or near the river goes unchecked. Funds from this grant would be used to implement river policing on the Muskegon River. The Newaygo police department would hire additional officers and purchase two boats to be used in this project.</p>	<p>Category 1</p>
<p><u>GA</u></p>	<p><u>Towns County Sheriff's Department - \$535,828</u></p> <p>The Towns County Sheriff's Department will receive a \$535,828 grant to combat increasing crime. Towns County is a rural county with terrain that is hard to reach by vehicle. The county has suffered from the economic downturn, with many people unemployed. Additionally, there has been an increase in the amount of drug activity and drug-related crimes in Towns County. Because of the small tax base and the economic downturn, the Towns County Sheriff's Department lacks funding to retain an adequate number of officers. The sheriff's department would use grant funding to hire additional officers and support staff. The additional officers will assist in the department's efforts to combat drug activity and related crime. The department will also implement an intelligence-led policing approach to combating drug activity and related crimes.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WA</u>	<p><u>Stevens County - \$760,551</u></p> <p>Stevens County, in conjunction with the Stevens County Sheriff's Office, will receive a \$760,551 grant to hire additional law enforcement officers. The Steven's County Sheriff's Office lacks funding to provide necessary police services and to retain an adequate number of law enforcement officers to combat crime. The sheriff's office would use grant funding to hire additional officers and purchase needed equipment for new and retained personnel.</p>	Category 1
<u>NE</u>	<p><u>Omaha Tribe of Nebraska - \$300,000</u></p> <p>The Omaha Tribe of Nebraska, in conjunction with the Omaha Nation Law Enforcement (ONLE), will receive a \$300,000 grant to enable information sharing. Because of budget cuts and decreased funding, ONLE is unable to coordinate and collaborate in information sharing with other law enforcement agencies. ONLE's goal for this project is to improve its capacity to share criminal intelligence information with other law enforcement agencies and use acquired information to provide better services to its community. To achieve this goal, ONLE will establish a community policing plan to enhance collaborative efforts with other law enforcement agencies, to improve information sharing capabilities with those agencies, and to evaluate criminal data and statistics more effectively.</p>	Category 1
<u>MT</u>	<p><u>City of Glasgow - \$592,093</u></p> <p>The City of Glasgow, in conjunction with the Glasgow Police Department (GPD), will receive a \$592,093 grant to combat drug-related crime and violence.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>Glasgow has seen an increase in the number of drug-related crimes and violence in the past several years. With a limited number of personnel, each officer at GPD handles 40 or more cases per month. GPD and other agencies plan to implement a community policing approach to combat violent and drug-related crimes. GPD will use grant funds to create a regional justice center that will handle criminal investigations and victim support services in Glasgow and the surrounding community. To support this effort, GPD will hire additional investigators and an evidence technician. This justice center will improve evidence collection and processing and will improve community safety.</p>	
<u>AR</u>	<p><u>Marion County Government - \$209,259</u></p> <p>The Marion County Government will receive a \$209,259 grant provide essential law enforcement services. Marion County lacks a sufficient number of law enforcement officers to keep the community safe. The Marion County Government will use grant funds to hire two additional officers to allow the county to have an officer on duty at all times. Funds will also be used to provide all officers with needed equipment. Each patrol unit will be equipped with audio and video recording equipment and the agency will replace its alcohol testing unit.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MN</u></p>	<p><u>Winona County - \$359,196</u></p> <p>Winona County, in conjunction with the Winona County Sheriff's Office (WCSO) and the Winona County Attorney's Office (WCAO), will receive a \$359,196 grant to create a Rural Crime and Drug Strike Task Force. The Winona County Sheriff's Office has seen a drastic increase in the amount of drug and gang activity and related crimes and violence in their community, and lacks sufficient manpower to address these crimes. The task force created for this project will allow the sheriff's office to hire an additional investigator and the attorney's office to hire an additional prosecutor. These additional personnel will allow WCSO to investigate crimes more effectively and provide security to the community, while WCAO will be able to prosecute more effectively the criminals involved with drugs and gangs.</p>	<p>Category 1</p>
<p><u>SD</u></p>	<p><u>City of Watertown - \$1,568,993</u></p> <p>The City of Watertown will receive a \$1,568,993 grant to combat increasing crime by working with the Rural Information Exchange Model (RIEM). This area of South Dakota has seen an increase in the amount of gang- and drug-related crime and violence. RIEM will facilitate the convergence, collaboration, and communication between federal, state, local, and tribal law enforcement agencies in five counties of northeast South Dakota to combat these crimes. This project will create additional communications positions and an information systems technician position. These positions will allow RIEM to expand its services to additional areas and agencies included in these five counties. With funding, RIEM will also be able to purchase needed equipment and improve technology to collaborate and communicate better with all agencies working with</p>	<p>Category 1</p>

	this project.	
<u>ND</u>	<p><u>Three Affiliated Tribes - \$1,161,669</u></p> <p>Three Affiliated Tribes (TAT), in conjunction with the TAT Law Enforcement Department, will receive a \$1,161,669 grant to combat increasing crime. The area encompassed by the TAT Law Enforcement Department has seen an increase in the number of violent crimes requiring an investigation. The current investigator is unable to keep up with the number of cases that require investigations. The TAT Law Enforcement Department will use funding to hire additional investigators to assist with the large number of cases requiring further investigation; and to assist with investigations and information gathering. These additional personnel will allow the department to increase public safety and security.</p>	Category 1
<u>IA</u>	<p><u>Mason City - \$99,005</u></p> <p>Mason City, in conjunction with the Mason City Police Department, will receive a \$99,005 grant to enhance their data collection and intelligence-led policing capabilities in order to effectively combat crimes in the community. Mason City has seen an increase in cybercrimes and drug-related crimes and violence. With better information-gathering capabilities, many of these crimes would be more easily solved. The Mason City Police Department proposes to implement better information gathering, storage, analysis, and dissemination techniques. The department will use funding to hire an investigative intelligence analyst, who will be responsible for creating and monitoring criminal information. The analyst will also enhance the department's ability to share information and collaborate</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	with other agencies and jurisdictions to reduce crime.	
<u>KY</u>	<p><u>City of Paintsville - \$222,411</u></p> <p>The City of Paintsville will receive a \$222,411 grant to combat drug activity and related crimes more effectively in its area. East Kentucky is plagued by severe drug abuse, particularly with prescription pain killers and methamphetamines. Paintsville law enforcement agencies are understaffed and lack sufficient technology to combat these drug activities and related crimes. Paintsville will use grant funds to create the Paintsville Drug Task Force, which will aim to improve rural law enforcement investigations of drug-related crimes and violence. Funding will be used to hire an additional officer, who will be tasked with investigating drug-related crimes and will also receive grant-funded training to properly investigate and “clean up” methamphetamine labs. Funding will also be used to hire a prosecutor, who will assist in prosecuting the increasing case load of Paintsville and the surrounding area.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OK</u></p>	<p><u>Bryan County - \$118,779</u></p> <p>Bryan County, in conjunction with the Bryan County Sheriff's Office, will receive a \$118,779 grant to stop the flow of narcotics through the county. Bryan County will use the funds to hire a narcotics investigator and purchase necessary equipment. The narcotics investigator will be responsible for the identification of frequented drug trafficking and manufacturing areas. The narcotics investigator will also be responsible for visiting local schools in participation with their school resource officers.</p>	<p>Category 1</p>
<p><u>KS</u></p>	<p><u>State of Kansas - \$4,716,405</u></p> <p>The State of Kansas, in conjunction with the Kansas Highway Patrol, will receive a \$4,716,405 grant to reduce the number of narcotics traffickers through the professional investigation, apprehension, and conviction of criminals; to enhance the drug detection canine program; to enhance Domestic Highway Enforcement training to increase officer and community safety; to acquire specialized technology to enhance detection of drugs, weapons, explosives, aliens, and other illegal contraband; to enhance detection of illegal contraband being carried in commercial motor vehicles; to increase the availability of narcotics detection technologies and equipment to support local law enforcement agencies; and to enhance intelligence gathering and sharing.</p> <p>The State of Kansas will use the funds to hire 20 full-time Domestic Highway Enforcement Team (DHET) members. Included in the 20 new hires will be 3 lieutenants, 12 tech troopers, and 5 troopers for the Kansas Highway Patrol</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	(KHP). The funds will also be used to purchase eight drug-detecting canines and specialized drug detection equipment. The primary concern of the Kansas Highway Patrol is to prevent and combat drug-related crime and increase traffic safety. DHET will provide KHP with an opportunity not only to save lives, but also to make a positive impact on drug-related crime through the detection and apprehension of criminals.	
<u>PA</u>	<p><u>Huntingdon County - \$225,202</u></p> <p>Huntingdon County, in conjunction with the Huntingdon County District Attorney's Office, will receive a \$225,202 grant to reduce drug usage, specifically heroin and crack cocaine. This goal will be achieved by reducing the drug-trafficking problem in Huntingdon County. Huntingdon County will use the grant funds to create the jobs of a full-time detective and a full-time administrative assistant. These additional positions will enhance Huntingdon County's ability to fight drug usage. The county currently has a drug task force comprising four local police agencies. The addition of these positions will enable the drug task force to have a more structured system in place and, as a result, be more effective.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OH</u></p>	<p><u>City of Portsmouth - \$480,522</u></p> <p>The City of Portsmouth, in conjunction with the Portsmouth Police Department, will receive a \$480,522 grant to reduce drug crime and traffic injuries in the community by using an intelligence-led policing approach. With this approach, the department can plan for and implement policing practices and enforcement that will target community problems effectively.</p> <p>The City of Portsmouth will use the grant funds to hire three additional police officers. Using the grant funds in this way will allow the department to create jobs, collect information, analyze information, and share information with other agencies; reduce the number of drug crimes in the jurisdiction; reduce the number of traffic fatalities and injuries; reduce the number of vehicle operators that operate under the influence of drugs and alcohol; and prevent terrorism through good policing.</p>	<p>Category 1</p>
<p><u>WA</u></p>	<p><u>Mason County - \$611,610</u></p> <p>Mason County, in conjunction with the Mason County Sheriff's Office, will receive a \$611,610 grant to increase the hours of patrol of rural county roads by law enforcement personnel, enhance citizen crime prevention initiatives, conduct investigations, deliver overall crime reduction, increase the safety of jailers and inmates by reducing overtime required of corrections officers and hire an administrative assistant for five undercover detectives, therefore, enabling more "street time" for undercover operations.</p> <p>Mason County will use the funds to hire and retain three trained commissioned officers to perform law enforcement duties, hire one administrative assistant, and</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	hire one full-time corrections officer to increase to meet the minimum staffing requirements of watch sections and courtroom security.	
<u>NY</u>	<p><u>Village of Penn Yan - \$129,018</u></p> <p>The Village of Penn Yan, in conjunction with the Village of Penn Yan Police Department, will receive a \$129,018 grant to reduce the amount of criminal activity that occurs in the Village of Penn Yan and to raise the closure rate of open investigations. The village will use the funds to hire two part-time officers to increase the staff of the department. Their purpose is to supplement existing staff thereby enabling staff to spend more time on patrol and conducting investigations. The combination of proactive patrolling as well as additional time for follow-up investigations and surveillance will help reduce crime and raise the closure rate of open investigations.</p>	Category 1
<u>CA</u>	<p><u>Inyo County - \$165,000</u></p> <p>Inyo County, in conjunction with the District Attorney's Office, will receive a \$165,000 grant to control, reduce, and prevent criminal narcotics activity, including drug-related crime and violence, in Inyo County. The county will use the grant funds to hire and train an additional deputy sheriff investigator. The new agent's duties will include investigation of manufacturers, distributors, and lower- to upper-level narcotics dealers; drafting and service of search warrants; and report writing. Inyo County will also use the funds to replace equipment vital to ensuring confidentiality in investigations and preventing the delay of hard copy information sheets needed for court.</p>	Category 1

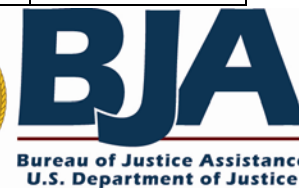

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OR</u></p>	<p><u>Tillamook County - \$1,148,224</u></p> <p>Tillamook County, in conjunction with the North Coast Regional Task Force (NCRTF), will receive a \$1,148,224 grant to increase illegal drug intelligence sharing, collaborate in investigations involving illegal drugs, and protect drug-endangered children. Tillamook County will use the funds to secure five positions on the North Coast Regional Task Force (NCRTF), three of which are scheduled for elimination. This award will permit continuing employment of three individuals directly involved with NCRTF, which will allow for virtually uninterrupted advancement in the goals of NCRTF and stabilize city and county budgets, thus contributing to the overall improvement of the local economic environment. Funds will also be used for continuation of service for three Global Positioning System tracking systems currently in use. Continuation of these services will ensure the successful collection of intelligence during investigations and provide for successful prosecutions.</p>	<p>Category 1</p>
<p><u>MI</u></p>	<p><u>Alma Department of Public Safety - \$177,568</u></p> <p>The Alma Department of Public Safety will receive a \$177,568 grant to implement a police K9 unit and become actively involved with the area multijurisdictional drug enforcement team to reduce the rate of drug-related crimes in the area and deliver the quality of service that citizens deserve and desire. The Alma Department of Public Safety will use the funds to hire two certified officers and to purchase and train a K9 unit. By coordinating efforts to focus specifically on drug and crime enforcement problems, the department will accomplish an increased number of drug-related arrests; an increased amount of information sharing through local collaboration and Regional Information Sharing Systems; K9 availability to area law enforcement officers, Alma</p>	<p>Category 1</p>

	College, and area schools; and stronger partnership with the community.	
<u>WV</u>	<p><u>Hampshire County Sheriff's Department - \$105,298</u></p> <p>The Hampshire County Sheriff's Department will receive a \$105,298 grant to implement an intelligence-led policing program and to create a permanent operations assistant position with the sheriff's office law enforcement section. The funding will assist the department in gathering and managing information collected by officers from the field that is vital to solving crime. The grant funds will also be used to provide the necessary equipment to implement this effort. The full-time operations assistant will be responsible for data entry and management of the agency's new record management system.</p>	Category 1
<u>MO</u>	<p><u>City of Crocker - \$175,791</u></p> <p>The City of Crocker, in conjunction with the Crocker Police Department, will receive a \$175,791 grant to increase officers and patrol coverage, reduce drug crimes in the city through detection and interdiction, and reduce impaired driving and crashes resulting from it. Crocker will use the funds to hire two additional police officers, who will be assigned to k-9 and impaired-driving programs. The funds will also be used to purchase a patrol vehicle that will be utilized for k-9 operations, drug interdiction, and impaired-driving programs. This vehicle will allow for the safety of officers and k-9 while on patrol, and will carry all needed equipment for investigations. This project will provide a significant response to the problems this community is facing by allowing for a greater police presence and by equipping the agency with needed investigative tools.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NY</u></p>	<p><u>Essex County - \$188,080</u></p> <p>Essex County, in conjunction with the Essex County Sheriff's Office, will receive a \$188,080 grant to address narcotic use and distribution throughout Essex County, and to enhance collaboration and information sharing with other departments in order to be more efficient and effective with drug investigations. The county will use the funds to increase staff through hiring. Providing another officer and adding overtime for existing officers will increase the man hours that will be available for narcotics enforcement. The funds will also be used to purchase necessary equipment for task force operations.</p>	<p>Category 1</p>
<p><u>ND</u></p>	<p><u>Office of the Attorney General - \$635,057</u></p> <p>The North Dakota Office of Attorney General, in conjunction with the North Dakota Bureau of Criminal Investigation, will receive a \$635,057 grant to analyze and disseminate intelligence data to task forces and local and regional law enforcement, allowing those agencies to manage intelligence-driven investigations effectively; to ensure appropriate use of confidential funds and timely reimbursement of task force expenses, and uniform data reporting by task forces; and to keep weapons out of the hands of substance abusers who have not complied with mandated treatment.</p> <p>The Office of Attorney General will use the funds to hire three analysts to join the Post Seizure Analysis Team to increase the operation from 8 to 16 hours per day to meet the increasing demand for intelligence data analysis. The funds will also be used to hire business services staff to coordinate uniform task force data collection, audit task force fiscal activities, and prepare timely reimbursement of</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	operating funds to task forces. In addition, the funds will be used to hire a specialist to comply with new state legislation.	
<u>MI</u>	<p><u>County of Emmet - \$162,373</u></p> <p>Emmet County, in conjunction with the Emmet County Sheriff's Office, will receive a \$162,373 grant to reduce the negative impact of prescription drug diversion on the community. Emmet County will use the funds to hire one detective who will be dedicated to a Prescription Drug Diversion Unit. This unit will develop working relationships and communication channels with medical professionals in Emmet County, foster information sharing regarding the prescription drug diversion problem, educate the public and medical professionals of this abuse, initiate investigations on all known overdose cases and overdose deaths, proactively arrest individuals who "doctor shop" and commit prescription fraud and scams, and proactively investigate medical professionals who over-prescribe controlled substances.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NH</u></p>	<p><u>Sullivan County Commissioners - \$260,879</u></p> <p>Sullivan County, in conjunction with the Sullivan County Commissioners, will receive a \$260,879 grant to enhance their current work release program through the development of an intensive treatment program located within the jail setting, followed by a day reporting center for offenders at the end of their sentences.</p> <p>The Sullivan County Commissioners will use the funds for the creation of three jobs, and the retention of two positions. Filling the needed positions of correctional officers, case manager, and job development officer will deliver the necessary services in this evidenced-based program, the Sullivan County Reentry Initiative. Enhancements will include the development of an intensive 90-day residential treatment program for offenders while in jail, the transition to a 9-month day reporting center at the end of an offender's sentence, providing life skills and resource awareness groups for pretrial offenders, a reentry case manager to provide transitional services and day reporting services, three additional correctional officer positions, the position of job development officer, the facilitation of a seamless transitional release of offenders and the ability to link them with essential services in the community, and the reduction of average caseloads by 17%.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NC</u></p>	<p><u>Wilson County - \$346,221</u></p> <p>Wilson County, in conjunction with the Wilson County Sheriff's Office, will receive a \$346,221 grant to identify the repeat criminals that target businesses and residential areas. Wilson County will use the funds to hire two investigative deputies and purchase equipment to target these repeat offenders, build cases against them, and successfully prosecute the cases in state and federal court. This team will work close with the court system and surrounding law enforcement agencies, as well as probation and parole, to identify repeat offenders. Once these have been identified, the team will use investigative techniques such as surveillance and informants to identify criminal acts that they have committed. After apprehending the targeted offenders, the team will work closely with prosecutors to obtain convictions and appropriate sentences.</p>	<p>Category 1</p>
<p><u>KS</u></p>	<p><u>Franklin County - \$379,998</u></p> <p>Franklin County, in conjunction with the Franklin County Sheriff's Office, will receive a \$379,998 grant to increase of the information flow among three law enforcement agencies and two correctional facilities, decrease the amount of response time between calls, increase the amount of time on patrol, and provide patrol units with instant access to a centralized database.</p> <p>Franklin County will use the funds to hire an information technology specialist and to provide multijurisdictional and interoperable software along with wireless mobile data terminals to all criminal justice agencies in Franklin County. The funds will also be used to purchase Panasonic Toughbook computers for all patrol vehicles of the partnering agencies. These laptops will allow patrol units to be dispatched instantly without miscommunication between officers and</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	dispatch. The laptops will provide an officer with access to any of the files or record systems within the database and allow the officer to perform his/her duties more efficiently and productively.	
<u>TX</u>	<p><u>Gray County - \$206,899</u></p> <p>Gray County, in conjunction with the Gray County Sheriff's Office, will receive a \$206,899 grant to enhance the efforts to prevent and reduce crime, to organize and maintain an intelligence network among agency deputies and neighboring jurisdictions, and to identify and initiate an interdiction program on rural roads and highways known to be used for drug trafficking.</p> <p>Gray County will use the funds to hire one person for a new position as deputy sheriff. The person hired will be a Certified Peace Officer in the State of Texas. The funds will also be used to purchase and equip two new four-wheel-drive vehicles suited for off-road use, and deploy these vehicles as assigned to patrol rural parts of Gray County. These vehicles and assignments will increase the capability of deputies to deal with drug activity, especially clandestine meth labs, property thefts, and other crimes in rural Gray County.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MI</u></p>	<p><u>Michigan Department of State Police - \$6,553,686</u></p> <p>The Michigan Department of State Police will receive a \$6,553,686 grant to coordinate “The Hometown Security Teams” program, a highway criminal enforcement initiative directed at rural northern Michigan. The purpose of this effort is to intercept and deter transportation of contraband on Michigan highways, enhance homeland security efforts at the international border and critical infrastructure, provide a mobile response team for emergency situations in rural areas, gather intelligence information to further criminal investigations and deter criminal activity, and provide a traffic enforcement component to ensure safe driving and safe vehicles.</p> <p>The Michigan Department of State Police will use the funds to achieve these goals by hiring and training 15 troopers and 3 sergeants. The funds will also be spent on equipment and resources necessary to achieve these program objectives: the seizure of drugs and drug paraphernalia, recovery of stolen property, seizure/forfeiture of real property and cash, arrests and convictions of criminals, measurement of enforcement contacts, interruption of drug transportation, and development of major cases involving criminal enterprise.</p>	<p>Category 1</p>
-------------------------	---	-------------------

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>IL</u></p>	<p><u>Hamilton County Sheriff's Department - \$146,588</u></p> <p>Hamilton County, in conjunction with the Hamilton County Sheriff's Department, will receive a \$146,588 grant to reduce rural crime by reducing the production, distribution, and use of drugs, with an emphasis on methamphetamine. This project will enable the Hamilton County Sheriff's Department to dedicate an officer to investigate drug and drug-related crimes. The department will use the funds to hire one full-time sworn officer, who will be dedicated to the Southern Illinois Drug Task Force, a multijurisdictional task force. The dedicated officer's core job responsibilities will be to investigate methamphetamine production, distribution, and use. This officer would also investigate drug-related crimes such as robberies, burglaries, thefts, drug violence, and drug trafficking.</p>	<p>Category 1</p>
<p><u>UT</u></p>	<p><u>Beaver County - \$699,445</u></p> <p>Beaver County will receive a \$699,445 grant to create a multiagency approach in combating rural crime using investigation, crime scene evidence collection, intelligence gathering and sharing, drug taskforce operation, and community-oriented policing principles, and with the assistance of an interdiction unit. The two counties that will be involved in the interdiction unit are Beaver and Iron Counties. The two counties are located in a remote and rural area of the State of Utah, with most resources more than 2 hours away.</p> <p>Beaver County will use the funds to hire and retain seven employees and to purchase necessary equipment. With the increase in employees that will be dedicated to the interdiction unit specializing in crime and drug-related enforcement, the county can begin to reduce the number of incidents in the communities. The interdiction unit will be able to use information gathered</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	through the development and implementation of an intelligence-led policing program. The information will be used in the prevention and reduction of crime in the 14 or more communities served within the two counties involved in the interdiction team.	
<u>OH</u>	<p><u>Seneca County - \$512,050</u></p> <p>Seneca County will receive a \$512,050 grant to increase data sharing among law enforcement agencies, increase efficiency of reporting, reduce officer response time, allow access to real-time data, and allow redistribution of forces to focus on “hot” spots discovered using submitted data.</p> <p>Seneca County will use the funds to hire one new deputy, hire one new detective, and retain one officer. The funds will also be used to purchase necessary equipment and communication services. The hiring and retention of officers will reduce the response time and offer better policing protection for the unincorporated areas of Seneca County. The equipment will allow a faster response time because the officers will not have to travel back to the office to file an incident report, making them readily accessible for future calls.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>OK</u></p>	<p><u>State of Oklahoma - \$1,064,657</u></p> <p>The State of Oklahoma will receive a \$1,064,657 grant to create a program to provide services to Southwest Oklahoma crime victims by providing a multijurisdictional cooperative investigative unit specializing in the complex economic crimes surrounding the unique cultural and geographic characteristics of rural Southwest Oklahoma.</p> <p>The State of Oklahoma will use the funds to hire two investigators, one attorney, and one administrative assistant, and retain one attorney position. The funds will also be used to purchase necessary equipment. As a result of this program, complex economic crimes will become easily adjudicated while minimizing collateral damage to the victims. Key outcomes will be the amount of restitution paid to the victims of financial scams and the regression of criminal activity in the target area and subsequent enhanced quality of life for residents of these Southwest Oklahoma communities. Moreover, key outputs will include increased apprehension, arrests, adjudication, and dispositions as a result of multijurisdictional cooperative investigations.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WV</u>	<p><u>Town of Cowen - \$110,737</u></p> <p>The Town of Cowen will receive a \$110,737 grant to create jobs and increase safety in the town of Cowen. The town will use the funds to hire, train, and support two new officers. These trained and skilled professionals will address the problems of drug violence, narcotic trafficking, drug distribution, burglaries, theft, and property crimes. Their orientation and training will concentrate on intelligence-led policing and emphasize the strengths of a multijurisdictional approach.</p>	Category 1
<u>TN</u>	<p><u>City of Trenton - \$207,591</u></p> <p>The City of Trenton will receive a \$207,591 grant to reduce crime in the school system, reduce juvenile delinquency, reduce truancy, promote a safe school environment for learning, and increase positive attitudes toward law enforcement. This award will allow the department to implement a School Resource Officer Program. The City of Trenton will use the funds hire two School Resource Officers and to purchase necessary equipment. One School Resource Officer will be assigned full-time to the middle school and one to the high school; these officers will work in conjunction with the facility and staff of each school. The School Resource Officers will also work with the local juvenile court to prosecute those who violate the truancy laws and any other state or local law.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>CA</u></p>	<p><u>Amador County - \$501,778</u></p> <p>Amador County will receive a \$501,778 grant to allow the Amador County Sheriff's Office to continue to fund two full-time investigators assigned to a multiagency task force, the Amador County Combined Narcotics Enforcement Team (ACCNET).</p> <p>The Amador County will use the funds to retain two Sheriff's Office investigators assigned to ACCNET. Retaining these positions will allow the county to continue to initiate methamphetamine-related investigations of labs, trafficking, and unlawful possession of precursor chemicals; assist law enforcement and other local agencies in narcotic searches and investigations; initiate asset seizure cases and collect funds; and refer drug cases and drug-endangered children offenses for prosecution.</p>	<p>Category 1</p>
<p><u>WA</u></p>	<p><u>City of Shelton - \$355,731</u></p> <p>The City of Shelton will receive a \$355,731 grant to continue crime prevention activities within the City of Shelton and the surrounding area by retaining the community policing officer and the school resource officer. The city will also purchase the necessary materials for six citizen police academies. This award will allow the city to continue working with entities in the community and surrounding area to identify areas of criminal activity and to coordinate crime prevention activities.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NC</u></p>	<p><u>State of North Carolina District Attorney's Office - \$252,623</u></p> <p>The State of North Carolina District Attorney's Office will receive a \$252,623 grant to continue to prosecute batterers to the full extent of the law and to provide one-on-one attention to victims through their current program. The State of North Carolina District Attorney's Office will use the funds to retain two assistant district attorneys, who prosecute crimes of domestic violence, and a victim/witness legal assistant, who solely works with the victims and witnesses involved in domestic violence crimes. This award will help to further develop the existing program, with the goals of greater multiagency communication and more law enforcement involvement in domestic violence cases.</p>	<p>Category 1</p>
<p><u>AL</u></p>	<p><u>Fourth Judicial Circuit of District Attorney's Office - \$306,104</u></p> <p>The Fourth Judicial Circuit of District Attorney's Office will receive a \$306,104 grant to identify and disrupt the drug trade within the Fourth Judicial Circuit through the drug task force that operates under the umbrella of the District Attorney's Office of the Fourth Judicial Circuit.</p> <p>The Fourth Judicial Circuit of District Attorney's Office will use the funds to continue the operation of the drug task force through retaining of four current positions and purchasing of necessary equipment. The Fourth Judicial Circuit Drug Task Force has been in existence for about 6 years and in continual operation since its inception. The main objective of the task force is to continue and expand ongoing drug enforcement.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MS</u></p>	<p><u>Marshall County Board of Supervisors - \$561,739</u></p> <p>The Marshall County Board of Supervisors will receive a \$561,739 grant to create and enhance various investigative processes and resources. The Marshall County Board of Supervisors will use the grant funds to hire a crime scene investigator, a sexual assault investigator, a case analyst, and a criminal analyst. The case analyst will compile, identify, and record previous and current case histories and information, whereas the criminal analyst will assist the Investigations Unit in identifying suspects, trends, and locations of stolen items. The funds will also be used to purchase equipment to allow the effective and comprehensive investigation of cold, ongoing, and new criminal cases. This project will aid in the identification and apprehension of a substantial number of criminals.</p>	<p>Category 1</p>
<p><u>AR</u></p>	<p><u>City of West Helena - \$381,874</u></p> <p>The City of West Helena will receive a \$381,874 grant to educate and enable youth to reject the use of illegal drugs, alcohol, and tobacco; increase the safety of the city and county citizens by substantially reducing drug- and gang-related crime and violence; and develop community coalitions specifically among the faith-based and community organizations.</p> <p>The City of West Helena will use the funds to hire an officer, detective, and a part-time project director. The funds will also be used to purchase necessary equipment. The project will provide students in grades K–12 with gang resistance education and alcohol, tobacco, and other drug prevention programs and policies that have been evaluated and are based on sound practices and procedures; form a drug/anti-gang unit operating within the City of Helena and</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	the West Helena Police Department; develop a training program specifically targeted to faith-based and community organizations; and train all City of Helena and West Helena Police Department officers with the most current information about law enforcement strategies and responses to drug crimes.	
<u>MO</u>	<p><u>Missouri State Highway Patrol - \$3,471,119</u></p> <p>The Missouri State Highway Patrol will receive a \$3,471,119 grant to prevent and combat crime in rural areas of the State of Missouri and to develop a multiagency model of intelligence gathering that applies intelligence-led policing efforts to identify, apprehend, and prosecute criminal suspects successfully.</p> <p>The Missouri State Highway Patrol will use the funds to develop and support a rural crimes task force, consisting of 10 criminal investigators, 2 criminal analysts, and part-time clerical assistance. The task force will be focused on an integrated effort in rural areas to prevent and combat crime, in particular drug-related crime. Funds will also be used to provide equipment and supplies for investigators to perform their duties. To maximize statewide coverage, criminal investigators will be geographically dispersed in nine regional areas. These investigators will be tasked with coordinating rural criminal investigations with local police, sheriffs, and prosecutors. Task force investigators will facilitate quarterly meetings of stakeholders, including citizens, which will have a positive effect on combating crime. Investigators will facilitate formation of specialized operations to address specific criminal activity (e.g., theft of grain, livestock, farm implements, and metal). Analysts will compile, review, analyze and disseminate information and intelligence related to rural crimes.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>KY</u></p>	<p><u>City of Barbourville - \$136,408</u></p> <p>The City of Barbourville will receive a \$136,408 grant to maintain and develop multiagency and multijurisdictional narcotics investigations, dedicate additional time to gather and investigate intelligence and act on information, and to provide additional means for gathering and analyzing intelligence.</p> <p>The City of Barbourville will use the funds to hire one patrolman and purchase the necessary equipment for the patrolman. The major results of this project will be increased patrol contacts, increased arrests, increased prosecutions, and a decrease in overall crime and arrests due to narcotics crimes. The department will also use the additional manpower to increase patrol interdiction for gathering intelligence to be used for new investigations in cooperation with and cosponsored by state and federal agencies in an effort to dispose of the majority of narcotics trafficking in the city.</p>	<p>Category 1</p>
<p><u>LA</u></p>	<p><u>Twentieth Judicial District Attorney's Office - \$82,867</u></p> <p>The Twentieth Judicial District Attorney's Office will receive a \$82,867 grant to enhance the existing worthless check recovery program by hiring a full-time collections officer. This new employee will assist business owners in recovering money from worthless checks and will educate merchants on the proper information needed when accepting checks for payments. In addition this person will prepare documents to properly recover funds, track data-processed records of researched and executed collection warrants for worthless checks, prepare special and recurring monitored reports, and aid in the arrest of offenders after following proper collection procedure. Possessing the necessary training in proper procedures and documentation, this collections officer will reduce delay</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	in recovering monies for worthless checks. Enhancing the data process system will allow the officer to track outstanding warrants and help recover funds more efficiently.	
<u>NC</u>	<p><u>Iredell County - \$1,074,384</u></p> <p>Iredell County will receive a \$1,074,384 grant to reduce the flow and distribution of illegal drugs and narcotics in Iredell County and on major highways and interstate highways. Iredell County will use the funds to hire four additional patrol deputies and purchase vehicles and standard equipment issued to each deputy in the department. The new personnel will help to increase safety on the highways by enforcing the state traffic laws and maintaining a visual presence on the highways, establish and maintain relationships with other federal and state agencies and assist in all narcotic investigations, seize all illegal narcotics that are identified and arrest violators, seize all currency and monies associated with illegal narcotic trafficking, present prosecutable cases to the appropriate local or federal prosecution entity for adjudication, and assist other local agencies in special operations or by providing training.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WY</u>	<p><u>Eastern Shoshone Tribe - \$300,041</u></p> <p>The Eastern Shoshone Tribe will receive a \$300,041 grant to address the lack of police officers on Wind River Reservation. The Eastern Shoshone Tribe will use the funds to hire two traffic safety officers and to purchase necessary equipment. By providing for these officers on Wind River Reservation, the award will enable the Eastern Shoshone Tribe to address the increasing amount of traffic offenses, specifically driving under the influence.</p>	Category 1
<u>FL</u>	<p><u>Lafayette County - \$197,300</u></p> <p>Lafayette County will receive a \$197,300 grant to transform the agencies outdated and substandard criminal data reporting software to a more current data reporting and record-keeping system. The county will use the funds to upgrade software systems and hire a part-time data clerk, enabling a quicker response time to the community and the possibility of information sharing with neighboring county and state and federal law enforcement agencies. The data clerk will ensure accurate data entry and information sharing with those other agencies.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>NC</u></p>	<p><u>Town of Oakboro - \$171,510</u></p> <p>The Town of Oakboro will receive a \$171,510 grant to produce more precise investigations that would improve the clearance rate of incidents and result in a higher arrest rate. The town will use the funds to hire a full-time investigator and to purchase the equipment necessary for the investigator to perform all types of criminal investigations, with a strong focus on narcotic distribution. This officer will work with neighboring agencies to share intelligence and to determine crime patterns that run across jurisdiction lines. This officer will also join the county's multiagency drug unit to reduce the number of persons selling drugs throughout the area. Additionally, the officer will work with the Regional Mutual Assistance Task Group, which brings together more than 30 local, state, and federal law enforcement agencies to combat crime on a regional basis.</p>	<p>Category 1</p>
<p><u>GA</u></p>	<p><u>Quitman Police Department - \$172,859</u></p> <p>The Quitman Police Department will receive a \$172,859 grant to reduce the opportunity for crime and disorder (specifically theft, burglary, and gang- and drug-related offenses), work as a communication hub, and enforce the law through successful conclusions to outstanding criminal investigations. The department will use the funds to hire a full-time criminal investigator and to purchase necessary equipment. This equipment and the criminal investigator will enable the department to augment current staff levels, implement a 10-part community policing initiative, solidify interagency cooperation and coordination, enhance all forms of communication technology, ensure that each police contact is carried out fairly and with respect, and seek input from the citizens on programs, procedures, and priorities.</p>	<p>Category 1</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>GA</u>	<p><u>City of Byron - \$348,421</u></p> <p>The City of Byron will receive a \$348,421 grant to hire two additional officers needed to sustain a multi-year traffic enforcement program, increase enforcement action and awareness through education, and to reduce the crime rate. The city will also use the grant funds to purchase necessary equipment for the new officers. Through increased proactive enforcement action, the officers will focus on narcotics trafficking, drug distribution, gang violence, weapons, property crime, burglaries, and vehicle operation under the influence of drugs or alcohol.</p>	Category 1
<u>IA</u>	<p><u>City of West Branch - \$139,432</u></p> <p>The City of West Branch will receive a \$139,432 grant to hire a crime data processor and to upgrade necessary equipment. The upgrade in technology will allow access to vital information and enable the coordination of federal, state, and local law enforcement resources that is essential to arrests, convictions, and reducing crime. The goal is to increase arrests and convictions by 10 percent.</p>	Category 1
<u>NV</u>	<p><u>Nevada Department of Public Safety - \$750,000</u></p> <p>The Nevada Department of Public Safety (DPS) will receive a \$750,000 grant to enable submission to N-DEx, the FBI's National Data Exchange, from nine law</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>enforcement agencies throughout Nevada. When data from these agencies is available for search via N-DEx, then all three Nevada fusion centers, the DPS Investigation Division, and law enforcement nationwide will have access to Nevada state, local, and tribal incidents. To achieve this goal, the Nevada DPS will hire contract staff, create data extraction programs for each of the nine agencies, implement submission from each agency to N-DEx, and monitor ongoing submissions and report project status. The funding will allow each agency to receive a server for processing and an extraction program applicable to its records management system.</p>	
<u>AR</u>	<p><u>City of Marianna - \$397,020</u></p> <p>The City of Marianna will receive a \$397,020 grant to educate and enable youth to reject illegal drugs as well as alcohol and tobacco, increase the safety of city and county citizens by substantially reducing drug-related crime and violence, and develop community coalition specifically within the faith-based community. The city will use the funds to hire and retain three law enforcement officers and their canine counterpart, and to purchase necessary equipment. The city will be able to provide students in grades K–12 with gang resistance, alcohol, tobacco, and other drug prevention programs and policies; establish a drug/gang unit within the City of Marianna Police Department; develop a training program specifically targeted to pastors; and train all City of Marianna Police Officers with the most current law enforcement strategies and responses to drug crimes.</p>	Category 1

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>VA</u></p>	<p><u>Town of Big Stone Gap - \$853,404</u></p> <p>The Town of Big Stone Gap will receive a \$853,404 grant to allow six rural members of law enforcement in Wise County to combine resources, share a central office, and to combat street-level narcotics crime. The area of coverage has the highest level of overdose deaths per capita in the State of Virginia and is one of the poorest counties in the state.</p> <p>The town will use the funds to hire a project director, two criminal analysts, a call-taker, and data entry personnel, who will all support the agents in their undercover operations. The funds will also be used to purchase necessary equipment. A strategy of this project is to conduct monthly meetings with a command group made up of police chiefs, sheriffs, and Virginia State Police officers to keep members apprised of current investigations and the progress made. The task force will also investigate cases, arrest suspects, and collect intelligence, and cooperate with local, state, and federal agencies in the sharing of information</p>	<p>Category 1</p>
<p><u>WI</u></p>	<p><u>City of Independence - \$485,816</u></p> <p>The City of Independence will receive \$485,816 to create new jobs, increase the city's public safety through increasing police coverage and investigation abilities, increase information gathering capabilities to initiate new investigations and track information to further solve community problems, and increase abilities to enhance and develop new interagency cooperation and share resources and information. The City of Independence will use its funds to hire additional police officers that will provide an increase of positive community relations, services, and resources provided, and increased community</p>	<p>Category 2</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	partnerships by increasing coverage to 24 hours per day. The funds will also assist with the complete management of service calls, increased investigations, and prosecution of crimes within the city, and with the creation of partnerships with agencies that require resources, cooperation, and assistance.	
<u>NC</u>	<p><u>City of Washington – \$191,308</u></p> <p>The City of Washington will receive \$191,308 to create one new job; reduce violent and drug crimes, especially as they relate to drug and gang activity; enhance the investigative gathering process; and offer offenders a chance at a crime-free life. The City of Washington will use its funds to support the hiring of a specialized sworn officer – a Drug and Gang Investigator – and to purchase an Automated License Plate Recognition System for two police vehicles. These expenses support “Project Next Step,” a problem-oriented policing program designed to eliminate drug trafficking and gang violence in Washington, NC. The deployment of license recognition software will be used to map where dealers, drug suppliers, and gang members travel. Building on a statistical and tracking foundation, extensive intelligence will be gathered by a Drug and Gang Investigator both on the networks of individuals involved in the local drug scene and individual patterns of criminal behaviors. Through the project, criminals are then given an intervention and presented with the opportunity to take advantage of local support services or face the consequences of their criminal behavior.</p>	Category 2
<u>MO</u>	<p><u>County of Ozark - \$127,850</u></p> <p>The County of Ozark will receive \$127,850 to hire a Drug Task Force Investigator to support the reinstatement of a Drug Task Force Investigator Program, and to purchase a vehicle to assist with investigating drug crimes in</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>rural areas. The County of Ozark will use its funds to hire a Drug Investigator to work with community police officers; provide enhancement to the web site and drug tip hotline; coordinate efforts with national Forest, Corps of Engineer, and Conservation officers to investigate drug production in rural areas; and provide police in currently inaccessible areas with a new vehicle equipped especially for drug crime scene investigations and surveillance. To identify and stop drug problems in the county, the Drug Task Force Investigator will implement community policing practices by meeting with community leaders, social service personnel, schools, volunteer fire department personnel, and forestry and conservation personnel to develop strategies to combat drug problems.</p>	
<u>ME</u>	<p><u>Town of Damariscotta - \$ 227,120</u></p> <p>The Town of Damariscotta will receive \$227,120 to ensure efficient and strategic tactical operations which result in more effective drug prosecutions and convictions; move an increased number of cases from arrest to prosecution and adjudication; and improve the function of their criminal justice system by reducing redundancies and streamlining functions, providing a better cost-benefit ratio for taxpayers, and ultimately, more effectively combatting crime and drug use in our rural towns. The Town of Damariscotta will use its funds to increase resources by hiring a full-time paralegal who will be the liaison between the law enforcement officers and the prosecutor and who will assist in the preparation of drug cases for trial. The town will also hire a part-time Drug Task Force Coordinator to organize the work of the Task Force, thus freeing up law enforcement time to investigate cases.</p>	Category 2
<u>MN</u>	<p><u>Goodhue County - \$173,290</u></p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>The County of Goodhue will receive \$173,290 to hire a full-time sworn law enforcement officer to serve as a narcotics investigator with the Goodhue County Sheriff's Office who will also assist the Southeast Minnesota Narcotics and Gang Task Force. The funds will also be used to purchase an unmarked squad car for the narcotics officer to operate for narcotics investigations and other criminal cases occurring in Goodhue County as well as the Southeast Minnesota Narcotics and Gang Task Force region. Goodhue County Sheriff's Office will maintain the position and unmarked squad car after the grant period by building the position into the budget and replacement of the squad car by the Goodhue County Sheriff's Office fleet rotation project.</p>	
<u>IN</u>	<p><u>Decatur County Government - \$499,941</u></p> <p>The Decatur County Government will receive \$499,941 to collect baseline data and reduce the number of thefts of property to support the manufacturing of methamphetamine; reduce the number of thefts of anhydrous ammonia from rural farms and commercial distribution centers; reduce the amount of methamphetamine being trafficked and sold within Decatur County; increase operational effectiveness through the use of intelligence-led policing from gathering and plotting of data to identify areas presenting best promise for return on the investment of resources; and increase the number of investigations initiated and the percent of investigations that lead to an arrest or conviction of offenders. The Decatur County Government will use the funds to create a Investigative Division by hiring three new officers, implement the use of streamlined electronic reporting for suspicious activity, implement the use of motion sensors and video surveillance recordings to improve manpower effectiveness, and deploy a canine to track and identify suspects and contraband.</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>PA</u>	<p><u>City of Titusville - \$180,290</u></p> <p>The City of Titusville will receive \$180,290 to improve and enhance the Titusville Police Department's administrative and operational capacity. The City of Titusville will use the funds for the creation of a new position, Records Manager, and the purchase of three patrol vehicles (two cruisers and one SUV). This project will include the implementation of intelligence-led policing, increased crime statistical analysis, and enhanced records maintenance through enrollment in a county-wide records management system.</p>	Category 2
<u>MO</u>	<p><u>Pulaski County Missouri - \$170,502</u></p> <p>The County of Pulaski will receive \$170,502 to initiate additional investigations that will lead to more arrests and convictions and for the department to establish better coordination with other agencies. The County of Pulaski will use the funds to re-establish two Communications Specialists' positions and hire a new Evidence Technician position. Through this project the county will increase the number of new investigations initiated, increase the percentage of investigations leading to arrest/conviction, and increase information sharing between agencies.</p>	Category 2
<u>WA</u>	<p><u>City of Sequim - \$299,569</u></p> <p>The City of Sequim will receive \$299,569 to hire, train, and equip a full-time civilian Forensic Investigator to act as a shared resource, serving the Sequim Police Department (SPD) and other agencies within the two-county area; improve and enhance local agencies use of crime scene management and the</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	processing of evidence to increase the number misdemeanor and low-grade felony criminal cases filed with the prosecutor; provide technical evidence processing and local fingerprint comparisons using the services of the new forensic investigator and an Automated Fingerprint Identification System (AFIS) to enhance criminal investigations for the SPD and surrounding city, county, and tribal law enforcement agencies; and provide crime scene training for patrol officers and detectives as well as quarterly hands-on training and a training newsletter for the currently underserved rural agencies surrounding Sequim.	
<u>ID</u>	<p><u>Oneida County Idaho - \$261,882</u></p> <p>Oneida County will receive \$261,882 to create jobs by hiring two sheriff's deputies, promote economic recovery by establishing collaborative partnerships to improve access to and avoid reductions in essential services, and improve law enforcement in its rural area. Oneida County will use the funds to fill two current vacancies with two qualified entry-level law enforcement professionals. The funds will also be used to purchase necessary equipment.</p>	Category 2
<u>OR</u>	<p><u>Oregon Department of Justice - \$1,531,744</u></p> <p>The Oregon Department of Justice will receive \$1,531,744 to retain and create jobs and to successfully investigate and prosecute drug cases across Oregon. The Oregon Department of Justice will use the funds to retain one prosecutor position, hire two investigators, one analyst, and one additional prosecutor. The funds will also assist in the establishment of a Strike Force team that will work with local law enforcement agencies across the state to investigate, prosecute, and deter drug-related crime. The funds will also be used to maintain essential services provided by civil forfeiture prosecutor and to initiate a minimum of 15</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	cases per year.	
<u>MT</u>	<p><u>Chippewa Cree Tribe - \$840,609</u></p> <p>The Chippewa Cree Tribe will receive \$840,609 to increase their investigative capabilities in order to combat and reduce the increasing prescription drug abuse problem on their reservation. The Chippewa Cree Tribe will use the funds to create two new Special Investigator positions, two new Detention Officer positions, and one School Resource Officer position. The funds will also be used to maintain three essential services: investigation, detention, and prevention; establish collaborative partnerships; and initiate multiple new investigations per year.</p>	Category 2
<u>MI</u>	<p><u>Mackinac County - \$231,022</u></p> <p>The County of Mackinac will receive \$231,022 to increase the number of interdictions, drug and money seizures, and increase the arrests for sales and possession of illegal narcotics in and around Mackinac County and the Straits area region. Mackinac County will use the funds to provide a Mackinac County Deputy and vehicle for use in the regional drug task force team known as the Straits Area Narcotics Enforcement Team (SANE). SANE is a regional team covering the northern tip of the lower peninsula and the eastern upper peninsula of Michigan. Mackinac County has been unable to provide a deputy for use by the regional team. Mackinac County citizens will benefit from the partnership by providing a local access and investigator to the team to work with the area agencies to develop leads and pursue drug trafficking in the area.</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>WA</u>	<p><u>Jefferson County, Washington - \$450,958</u></p> <p>The County of Jefferson will receive \$450,958 to reduce the flow of drugs into Jefferson County, decrease the number of suppliers and users of drugs, increase the seizure of drug supplier's assets, and provide an increased rate of successful prosecution of drug crimes. Jefferson County will use the funds to retain one Deputy Prosecutor II and one senior Deputy Sheriff (Detective) who will both be exclusively assigned to investigate and prosecute felony drug cases occurring in the county. The county will also add one entry-level Sheriff's Deputy who will as a Community Service Officer.</p>	Category 2
<u>ID</u>	<p><u>City of Montpelier - \$248,026</u></p> <p>The City of Montpelier will receive \$248,026 to improve investigations in the Montpelier Police Department by creating an investigations unit. The City of Montpelier will use the funds create two new jobs: a sworn and civilian position. The funds will also enable the city to maintain 100 percent of essential services without disruption, establish five collaborative partnerships to avoid duplication, initiate 30 new investigations monthly, increase the percent of investigations that lead to an arrest or conviction by 25 percent, and decrease the percent of crimes where an arrest or conviction cannot be made or charges must be reduced due to lack of evidence/poor evidence handling by 30 percent.</p>	Category 2
<u>AL</u>	<p><u>Lawrence County - \$430,844</u></p> <p>The County of Lawrence will receive \$460,844 to provide additional assistance and resources to the Lawrence County Drug Task Force. Lawrence County will use the funds to hire two additional agents and a drug prosecutor. The funds will</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	also be used for the purchase of a drug evidence tracking system, two vehicles, and a forensic evidence locker. Through this project the county expects an increased number of methamphetamine arrests; confidential informants; personal and real property asset seizures; community education presentations; saturation and interdiction projects; gathering, sharing, and storing intelligence; and efforts to work in cooperation with other agencies in working violent crime cases. In addition, the county expects each officer assigned to the task force to have completed continuing education training and for the department to continue working in conjunction with deferral officials on an organized crime and drug enforcement task force.	
<u>MO</u>	<p><u>City of Perryville - \$243,874</u></p> <p>The City of Perryville will receive \$243,874 to supplement the Police Department's Investigations Bureau and Narcotics Enforcement, maintain full patrol strength, increase the department's proactive narcotics investigations, and increase arrests for narcotics-related crimes. The City of Perryville will use the funds to promote a patrolman, currently a part-time investigator, to full-time investigator, and to fill a vacated patrolman position to maintain patrol strength. The newly promoted investigator will assist with current case investigations, while the additional patrolman will maintain the current level of police patrol services provided by the city. Uniforms and additional equipment will also be purchased for the officers to perform their duties.</p>	Category 2
<u>TN</u>	<p><u>Warren County Sheriff's Office - \$366,050</u></p> <p>Warren County Sheriff's Office will receive \$366,050 to employ well-trained officers that specialize in the detection, apprehension, and convictions of drug-</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	related crimes, reduce the drug problem that is evident in Warren County today, and reduce the costs accrued to clean up these drug-related offenses by taking a direct, positive, and offensive approach. The Warren County Sheriff's Office will use the funds to create positions for experienced Investigators to be hired for the primary purpose of working drug cases in Warren County. Three additional Investigators will be hired under the Narcotics Unit within the Investigative Division.	
<u>IN</u>	<p><u>Henry County Sheriff's Office - \$555,522</u></p> <p>The Henry County Sheriff's Office will receive \$555,522 to provide the citizens of Henry County with safety and protection as well as to provide services to various courts in Henry County. The Henry County Sheriff's Office will use the funds to preserve five Correctional Officers positions, which will allow the Sheriff's Office to maintain a level of safe jail operations and to preserve the safety and security within the jail, annex, and their community.</p>	Category 2
<u>NC</u>	<p><u>Lee County Sheriff's Office - \$263,872</u></p> <p>The Lee County Sheriff's Office will receive \$263,872 to improve the operations of the Lee County Sheriff's Office investigations unit by employing two full-time investigators and providing the department with additional technological tools. The two new full-time investigators will allow for the additional resources to focus on high-crime areas in the county. The funds will also be used to purchase a mobile unit, a data extraction kit, and a thermal system to further investigate drug activity and criminal cases. The department could focus on high-crime areas by staging in a highly visible mobile unit for the officers to work</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	from; at the same time, community members could meet and discuss information with officers at this site. By focusing on core problems of gangs, drugs, and crimes, the officers' being staged in these neighborhoods will assist in reducing crime overall.	
<u>LA</u>	<p><u>Bienville Parish Sheriff's Department - \$423,387</u></p> <p>The Bienville Parish Sheriff's Department will receive \$423,387 to reduce drugs and drug-related crime incidents by hiring, training, equipping, deploying, evaluating, and tracking three narcotics investigators and establishing collaborative partnerships. The funds will also be used to purchase equipment that is essential to preventive drug-deterrent operations and equipment essential for the disruption of illegal drug activity. The investigators will conduct initial and follow-up investigations related to illegal narcotics use and sales, interview and interrogate suspects and victims of drug-related crimes, provide surveillance of the distribution of illegal drugs, conduct street-level interdiction disrupting illegal narcotic activity, and disrupt the transport of illegal drugs on the interstate and secondary highway system. Also, these investigators will establish rapport with other law enforcement agencies to build crucial multi-jurisdictional relationships to prevent and reduce crime.</p>	Category 2
<u>IL</u>	<p><u>Jackson County Sheriff's Office - \$122,909</u></p> <p>The Jackson County Sheriff's Office will receive \$122,909 to acquire enough funds to continue operation with the current number of staff members. The Jackson County Sheriff's Office will use the funds to retain a current crime analyst's position, which would otherwise have been terminated. This employee's duties include compiling data concerning the drug enterprise as it</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	relates to the manufacture and sale of methamphetamine, cocaine and crack cocaine trafficking, and other drug investigations. Other duties include compiling data and identifying individuals engaged in the drug enterprise and in the sale and distribution of cocaine and crack cocaine in order to establish federal drug conspiracy cases. The current crime analyst is also a key component of the success of the office's Project Safe Neighborhoods Task Force. In addition, the funds will be used for a subscription to the Lexis/Nexis database, which will allow the Task Force to operate more efficiently in acquiring data related to its investigations and improve the function of their criminal justice system.	
<u>OH</u>	<p><u>Gallia County Sheriff's Office - \$226,196</u></p> <p>The Gallia County Sheriff's Office will receive \$226,196 to utilize current intelligence information and increase felony arrests. The Gallia County Sheriff's Office will achieve their goals by using the funds to hire two deputies to fill current vacancies. The sheriff's office has documented that gangs from Columbus, Ohio, and the State of Michigan have targeted their area, leading to increases in drug trafficking and related crimes. A new crime they have recently noticed in their area is armed robberies of the elderly for their Oxycodone and Hydrocodone medications. Hiring the additional deputies will help combat the increase in criminal activity occurring in their jurisdiction.</p>	Category 2
<u>CA</u>	<p><u>City of Fortuna - \$350,227</u></p> <p>The City of Fortuna will receive \$350,227 to hire additional sworn officers, form an Investigations Unit, increase its investigations capability, and conduct proactive investigations and enforcement efforts in preventing, solving, and</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	reducing crime. The City of Fortuna will use the funds to expand the number of sworn police personnel and resources; expand the police department's investigations capabilities; increase training for sworn police personnel; identify and proactively address problems and crimes in the community through thorough investigations and proactive investigations and enforcement efforts; involve community members; utilize technology; collect and review crime data; engage in multi-agency efforts; and monitor and assist criminal prosecution efforts.	
<u>MS</u>	<p><u>Mississippi Attorney General - \$675,000</u></p> <p>The Mississippi Attorney General will receive \$675,000 to improve safety by improving quality of investigations, successfully pursuing new joint investigations and solving problems in current investigations, stabilize officer and investigator employment by salary reimbursement for participating agencies, and improve law enforcement response to community issues. The Mississippi Attorney General will use the funds to hire a full-time attorney and a full-time project officer. The funds will also be used to purchase video conferencing equipment, which will increase the impact of meetings, trainings, and workshops by reaching many agencies or community leaders who cannot attend in person. Video conferencing will also allow for replay of conference classes at programs such as the twice-yearly Prosecutors Training Conference.</p>	Category 2
<u>IA</u>	<p><u>Lyon County - \$107,781</u></p> <p>The County of Lyon will receive \$107,781 to provide courthouse security on the judicial floor of the Lyon County Courthouse on days when court is in session. Currently, there is no security in the courthouse, and the county will use the funds to employ two security officers to work on scheduled court dates; in</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>addition, two metal detectors will be purchased for the entrances to the judicial floor, which will each be under the watch of the security officers. Three cameras and a 16-channel DVR will also be purchased to record and assist the prosecution of any incidents that might occur. This project will provide a safe environment for everyone who attends court hearings including victims, witnesses, judges, attorneys, court personal, and the defendants.</p>	
<u>OR</u>	<p><u>County of Union - \$309,169</u></p> <p>The County of Union will receive \$309,169 to stop the flow of illegal drugs, particularly methamphetamine, into Union and Wallowa Counties; reduce the crimes associated with illegal drug use such as theft, burglary, identity theft, and fraud; and coordinate with adjacent counties to share information and assist in apprehending individuals trafficking in illegal drugs. The County of Union will use the funds to hire two additional task force detectives to improve coverage of the county, paying special attention to roads leading into Union and Wallowa Counties from other areas. The county will also work with local jurisdictions to develop a comprehensive understanding of when, where, and by whom the illegal drugs are entering Union and Wallowa Counties.</p>	Category 2
<u>IA</u>	<p><u>Fayette Police Department - \$104,807</u></p> <p>The Fayette Police Department will receive \$104,807 to saturate areas where drug dealers operate and to seize, when possible, drug dealers' drugs and proceeds; reduce alcohol-related crimes such as drunk driving, underage drinking, domestic assaults, sexual assaults, and criminal mischief as a result of</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>drug and alcohol abuse; reduce theft and burglaries committed by drug and alcohol abusers looking for funds to support their habits; and enhance the efficiency and effectiveness of investigating the above-mentioned crimes through proper training, adequate time to thoroughly develop the investigation and apprehension of suspects using technology, and advanced training tactics. The Fayette Police Department will use the funds to increase shift hours by two hours per shift on specific nights in order to increase the visibility of the department. The department will use the funds for overtime pay and to hire an additional part-time officer. In addition, the funds will be used to purchase intelligence gathering and personal safety equipment.</p>	
<u>MI</u>	<p><u>Arenac County Sheriff's Office - \$142,587</u></p> <p>The Arenac County Sheriff's Office will receive \$142,587 to hire a police officer to be assigned to the Sting Narcotics Unit, reduce the number of drug houses, reduce drug overdoses, monitor drug activity/reduce criminal activity while assisting other agencies within their jurisdictions, reduce drug trafficking, reduce illegal drugs in the school districts within Arenac County, and reduce the cultivation of marijuana on public/private lands. The Arenac County Sheriff's Office will use the funds to restore a full-time police officer position assigned to the Sting Narcotics Unit, an undercover narcotics and criminal investigations unit within their region. This funding will support a full-time police officer for two years and provide undercover drug/investigation services for Arenac County.</p>	Category 2
<u>CA</u>	<p><u>Del Norte County - \$417,229</u></p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>Del Norte County will receive \$417,229 to augment the current operational structure of the investigations division of the Del Norte County Sheriff's Office by adding two personnel: a detective and a civilian special technician. With the hiring of these two additional personnel, the county will enhance its current ability to handle its high criminal caseload. It will also use funds to purchase all necessary equipment for both positions and for their specific duties, as well as upgrade storage equipment and handling of evidence for detectives and narcotics units.</p>	
<u>IL</u>	<p><u>City of West Frankfort - \$295,561</u></p> <p>The City of West Frankfort will receive \$295,561 to maintain current staffing levels of 14 police officers by using funding to retain two officers, maintain essential Police Department services without disruption, prevent crime and address juvenile crime, and enforce the department's zero-tolerance policy for crimes involving drugs, alcohol, and guns. The City of West Frankfort will use the funds to retain two full-time police officers in the West Frankfort Police Department, therefore avoiding laying off sworn personnel and maintaining the department's current force size.</p>	Category 2
<u>VA</u>	<p><u>Powhatan, County of - \$231,143</u></p> <p>The County of Powhatan will receive \$231,143 to obtain additional personnel and equipment to combat narcotics criminal activity. The County of Powhatan will use the funds to hire an additional investigator to enhance investigations of cases involving narcotics manufacturing and distribution. The county will utilize</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>this position to work with existing school resource officers to be able to provide current drug awareness information to students. The funds will also be used to appropriately outfit the narcotics officer with necessary transportation and equipment commonly utilized by law enforcement officers of this type. The county will utilize equipment requested to allow for enhancements in investigating crime- and drug-related offenses in the county and ensure the long-awaited necessary technological advances.</p>	
<u>FL</u>	<p><u>Arcadia City of - \$135,497</u></p> <p>The City of Arcadia will receive \$135,497 to enhance protection, community involvement, and crime-rate clearance; curb drug- and gang-related activity; and enhance coordination between the two law enforcement agencies within DeSoto County. The City of Arcadia will use the funds to hire an additional officer to help fill the void in their investigation division. The officer, assigned to the Criminal Investigation Division, will be classroom trained and trained by area law enforcement institutions on gangs, interviews and interrogations, property and personal crimes, and crime scene investigation. This officer will specialize in gangs and gang activities, identifying and associating their members.</p>	Category 2
<u>WI</u>	<p><u>Menominee Indian Tribe of Wisconsin - \$562,203</u></p> <p>The Menominee Indian Tribe of Wisconsin will receive \$562,203 to improve efficiency and effectiveness of community policing and drug investigation duties through hiring and training new staff. The Menominee Indian Tribe of Wisconsin will use the funds to re-hire a Community Service Officer to assume responsibility of responding to otherwise low-priority calls for assistance, hire an additional Investigator for the Menominee Tribe Police Department (MTPD) and</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	provide full certification training for this position, and hire a Budget Specialist to assist MTPD to most effectively utilize all grant funds managed by the department to include data collection and reporting requirements.	
<u>WV</u>	<p><u>City of Mount Hope - \$252,423</u></p> <p>The City of Mount Hope will receive \$252,423 to reduce drug and property crime county-wide by improving evidence detection, collection, and processing. This will be accomplished by utilizing a multifaceted approach focused on an intensive training program coupled with providing equipment to the officer in the field and full-time laboratory support and assistance. The City of Mount Hope will use the funds to hire a facility manager. In addition, the funds will be used for bi-monthly law enforcement training, equipment, and materials for officers' use in the field, including crime scene equipment.</p>	Category 2
<u>PA</u>	<p><u>Borough of Gallitzin - \$114,520</u></p> <p>The Borough of Gallitzin, in conjunction with the Gallitzin Police Department, will receive \$114,520 to improve rural law enforcement investigations. Gallitzin is a small rural county with rugged terrain and only two full-time police officers. Because the police department is small, they must be a reactive force handling calls as they come in. They have had little time or ability to be a proactive force and initiate crime prevention strategies. Gallitzin has also seen a recent increase in drug activity and drug-related crimes, including methamphetamine labs and the sale of heroin. To combat these issues the police department will use grant funds to hire an additional full-time officer as well as purchase a police vehicle. An additional full-time officer will provide 40 more hours of police coverage per week and will also allow the department's K9 officer to perform more drug policing and patrol. In addition, a reliable vehicle will allow the officer to</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	continue patrol in all weather conditions and over the county's rugged terrain.	
<u>KY</u>	<p><u>Allen County Fiscal Court - \$469,119</u></p> <p>The Allen County Fiscal Court, in conjunction with the Allen County Sheriff's Office, will receive \$469,119 to improve law enforcement investigations in their area. The county's topography makes it difficult to search for, find, and remove illegal drug operations such as methamphetamine labs, marijuana crops, and prescription drug diversions. The sheriff's office lacks the proper tools and equipment to combat these drug activities. For this project, the sheriff's office will use grant funding to hire two additional law enforcement officers and one project manager. These positions will assist the sheriff's office in investigating drug activity and drug-related crimes, and work to increase collaboration among civic, faith, and community organizations to combat these types of crimes. The office will also use grant money to purchase needed equipment to investigate drug activity in Allen County. This project further aims to increase community awareness of drug-related crimes and to educate the community on the importance of reporting these crimes. Additional officer positions, needed equipment, and community awareness will all allow the sheriff's office to better combat drug activity and drug-related crimes in Allen County.</p>	Category 2
<u>AL</u>	<p><u>Cherokee County Commission - \$300,000</u></p> <p>The Cherokee County Commission, in conjunction with the Cherokee County Narcotics Unit, will receive \$300,000 to conduct counterdrug investigations in their area. The county has seen an increase in drug activity during the past several years. In 2008, Cherokee County led Alabama counties with the number of marijuana plants it eradicated, and there are many methamphetamine labs in</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	operation throughout the county. Cherokee County will use funds to hire an additional officer for the narcotics unit and to upgrade its necessary technology and equipment. Both will allow the unit to investigate more drug-related crimes and increase their intelligence-gathering capabilities. The unit will also use grant funding to assist with investigation costs to allow for successful prosecution of individuals involved in drug activity and drug-related crimes. The unit's increased investigative capabilities will increase community awareness of and support for their work combating these types of crimes. Additional personnel, upgraded technology, and increased investigative capabilities will enhance community safety as well as the safety of the officers working in the unit.	
<u>ND</u>	<p><u>Mercer County - \$787,499</u></p> <p>Mercer County, in conjunction with the Mercer County and McLean County Sheriffs' Offices, will receive \$787,499 to reduce the amount of drug users and drug trafficking in their counties through collaboration and cooperation between law enforcement and prosecutors. The sheriffs' offices will continue to fund the Mercer McLean County Narcotics Task Force (MMCNTF) to combat drug use and drug trafficking in these counties. Mercer and McLean Counties have a combined population on 18,000. Although these are rural counties, they must work to combat criminal narcotics activity and drug-related crime and violence. A seasonal increase in their population due to tourism and transient jobs increases the amount of drug activity and drug-related crimes in the counties. The MMCNTF will serve as a locally-operated narcotics task force that focuses drug activity and drug-related crimes in Mercer and McLean Counties. The task force will also work to move investigations up the chain of distribution in order to identify and prosecute individuals involved with the drug-trafficking network. The task force will further serve the community by educating youths and adults about the dangers and penalties for illicit drug use and participation in drug</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	trafficking. Because the task force will focus solely on drug-related crimes, it will possess the necessary manpower, training, and resources to effectively combat drug activity and related crimes.	
<u>WV</u>	<p><u>West Virginia University - \$174,992</u></p> <p>West Virginia University, on behalf of the West Virginia University Institute of Technology Police Department, will receive \$174,992 to enhance crime prevention and detection. Because the department has inadequate staffing, the officers cannot devote enough of their resources to investigating drug-related and other crimes in their area. The department will use grant funds to hire an additional police officer who will serve as the department's crime prevention specialist and will be tasked with informing the community of current crime prevention methods. By adding an additional officer to the force, the department aims to reduce drug activity on campus, increase the number of successful investigations, and initiate successful narcotics enforcement programs. The department will also use funding to hire a civilian clerk. This position will be responsible for entering data and maintaining the department's records management system. The civilian clerk will improve data entry and enhance the department's ability to collect and share information with other law enforcement agencies and the community.</p>	Category 2

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>VA</u>	<p><u>Town of LaCrosse - \$105,065</u></p> <p>The Town of LaCrosse Police Department will receive \$105,065 to reduce the amount of drug and contraband trafficking and increase arrests. The police department plans to accomplish this goal by hiring a police officer who will specifically focus his/her efforts implementation of an interdiction program along a major drug corridor in southwest Virginia along Interstate 85. The new police officer will be equipped and receive specialized training in investigation and interdiction of drug and contraband trafficking. The police department will coordinate with neighboring agencies, including the South Hill Police Department, to address issues of illegal drugs and contraband in the area and provide intelligence in order to prevent crimes related to illegal drugs and contraband.</p>	Category 2
<u>OH</u>	<p><u>Harrison County Ohio - \$308,059</u></p> <p>Harrison County will receive \$308,059 to expand the Harrison County Sheriff's Office (HCSO) jail operations from a 12-day misdemeanor facility to a full-service jail. The county will use its funds to hire three corrections officers, train selected corrections officers, and expand jail operations by hiring the identified staff. Reducing the number of prisoner transports will allow patrol deputies to carry out more criminal patrols, investigations, and other assigned duties, enhancing county safety. The financial rewards realized by housing prisoners in county, reducing the number of prisoner transports, and generating revenue by housing other county's prisoners will pay for the retention of the current administrator and other positions. This program will also benefit the local judicial system.</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<p><u>MT</u></p>	<p><u>Montana Department of Corrections - \$924,996</u></p> <p>The Montana Department of Corrections (MDOC) will receive \$924,996 to decrease the disparity between the American Indian offender recidivism rate and that of the general population. MDOC will use its funds to 1) hire and place eight specialized community corrections probation and parole officers (five cultural specialists and three co-occurring disorder specialists); 2) provide targeted training in conjunction with MDOC's American Indian liaison and Behavioral Health Program facilitator, the Governor's office, the Montana Law Enforcement Academy, and tribal leaders; 3) expand partnerships with community stakeholders, including healthcare providers, tribal leaders and mentors, employers, advocates, institutional corrections probation and parole officers, local law enforcement, and the state fusion center; and 4) expand mechanized offender assessment and data collection.</p>	<p>Category 3</p>
<p><u>IA</u></p>	<p><u>First Judicial District Department of Correctional Services - \$735,286</u></p> <p>The First Judicial District Department of Correctional Services (DCS) will receive \$735,286 to 1) create jobs in northeast Iowa; 2) expand treatment options for correctional clients with mental illness or substance abuse problems; and 3) build the capacity of local community corrections. DCS will hire community corrections and treatment service staff to improve the identification of mentally ill and substance-addicted correctional clients and help them access appropriate treatment. DCS will use its funds to 1) screen jail inmates and correctional clients for mental health and substance abuse conditions; 2) coordinate support services with area agencies; and 3) offer additional services that encourage positive change in offender behavior. Collaborating with an array of public and private organizations in the seven-county project area, DCS will work toward increased cooperation, education, and success for all entities involved. The focus</p>	<p>Category 3</p>

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	of this project is to decrease local criminal activity by quickly identifying the needs of mentally ill and substance-addicted offenders and providing them the support they need to turn their lives around.	
<u>MO</u>	<p><u>Pulaski County, Missouri - \$288,921</u></p> <p>The Pulaski County Sheriff's Office (PCSO) will receive \$288,921 to place five new corrections officers in the jail, reducing the average caseload ratio. Jail staff in turn will have more time to implement programming and address the medical and emotional needs of inmates struggling with addiction. PCSO will use its funds to provide 1) treatment that improves recovery rates for inmates with drug and alcohol addictions; 2) mental health sessions and screening for at-risk offenders; and 3) counseling for the facility's registered sex offenders. PCSO will partner with an emerging group, Pulaski County DART, to create a nonprofit drug counseling center in the county. The new officers also will make it possible for PCSO to focus on inmates' spiritual health and helping inmates' families.</p>	Category 3
<u>LA</u>	<p><u>Morehouse Parish Sheriff's Office - \$929,994</u></p> <p>The Morehouse Parish Sheriff's Office (MPSO) will receive \$929,994 to enhance county jail operations by 1) creating and preserving correctional officer positions, and 2) implementing better training for correctional officers. As a result of the training, MPSO anticipates fewer conflicts between correctional officers and inmates, especially mentally ill inmates. MPSO will use its funds to 1) hire five new correctional officers, retain another 10 officers scheduled to be eliminated, and promote economic recovery by ensuring properly trained</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	correctional officers are employed within its facilities; 2) pay for staff training in the screening, assessment, and supervision of inmates, especially those with mental illness; and 3) meet minimum requirements set forth by the Louisiana Department of Corrections (LDOC) regarding correctional officer certification. MPSO will be allowed to continue housing LDOC inmates; this housing revenue will fund all 15 correctional officers.	
<u>AZ</u>	<p><u>County of Gila - \$271,360</u></p> <p>Gila County will receive \$271,360 to reduce the county jail population and establish a pretrial release and supervision program for eligible felony offenders—that is, first-time offenders with substance abuse or mental health disorders. Local studies indicate this population is the least likely to be released on its own recognizance or to post bond. The Gila County Superior Court Probation Department (SCPD) will use its funds to hire two probation officers and provide necessary early intervention and treatment for accused inmates who are eligible for release and need substance abuse or mental health treatment. For screening, SCPD will adopt the Virginia Department of Justice Services Pre-Trial Release Risk Instrument (developed in 1999 and validated in 2003), statistically valid across gender, race, and economic lines, and most importantly, for both rural and urban populations. Other instruments SCPD examined did not demonstrate valid results across these geographic populations.</p>	Category 3
<u>OR</u>	<p><u>Douglas County - \$1,795,615</u></p> <p>Douglas County will receive \$1,795,615 to reduce chronic recidivism by 1) identifying youth who are most likely to reoffend, and 2) using effective intervention strategies with those youth. Those identified as at-risk will receive reinforcement of prosocial skills, cognitive behavioral interventions, and other</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>skill-based learning. Youth with mental health issues will receive expedited assessment and services from a mental health therapist and substance abuse counselor. Those with medium-to-high Juvenile Crime Prevention Risk scores will receive increased supervision and accountability for delinquent behaviors and individualized intervention services in the community. The Douglas County Juvenile Department (DCJC) will use its funds to hire 1) substance abuse counselors; 2) mental health therapists; and 3) juvenile service specialists. The counselors and therapists will provide service to youth in the Intensive Intervention Program (IIP); assessing and treating the IIP youth, one working with youth in the detention facility and the other with youth and families in the community. These services will ensure that youth are being assessed and receiving treatment in an expedited manner. The juvenile service specialists will provide coverage in the detention facility, essential services to youth in the facility, which were previously lost due to budget constraints.</p>	
<u>ME</u>	<p><u>Lincoln and Sagadahoc Multi-County - \$501,019</u></p> <p>Lincoln and Sagadahoc Counties will receive \$501,019 to reduce the number of pretrial inmates, the risk of recidivism and redundancies, and also provide a better cost-benefit ratio for taxpayers. The Lincoln and Sagadahoc Multi-County Jail Authority (LSMJA) will use its funds to launch a pilot risk assessment tool and provide case management and supervision. The counties will hire and train six pretrial case managers, who screen all in-custody pretrial inmates in the three counties using the new risk assessment tool, submit findings to courts for hearings/amendments for release, and supervise those inmates that are released pursuant to hearings/amendments. The result will be 1) the reduction of the number of pretrial inmates languishing in county jails; 2) improved efficiencies for District Attorneys and courts to expedite the release process; 3) a decrease in tax payers dollars that support incarceration and reduce the risk of redividism;</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	and 4) a reduction in law enforcements efforts to maintain control in overcrowded jails.	
<u>AZ</u>	<p><u>Santa Cruz County - \$491,226</u></p> <p>Santa Cruz County will receive \$491,226 to 1) fund the transition of the county jail to a community corrections center that meets the needs of rural law enforcement; 2) improve the management of inmate populations by decreasing the inmate-to-officer ratio; and 3) provide improved security that can handle the inmate population's explosive growth. The county will use its funds to hire and train six detention officers and form a transition team to develop policies and procedures for the move to the new facility. The transition team will disseminate the policy manual and hold informational meetings with rural law enforcement agencies and with the prosecution, probation, and METRO Task Force. The new detention officers will also assist in the physical move to the new facility without compromising security, dispatch, or communications. The project will improve operations and administration by reducing the inmate-detention officer ratio and implementing greater coordination among rural agencies working together.</p>	Category 3
<u>OR</u>	<p><u>Lincoln County, Oregon - \$430,684</u></p> <p>Lincoln County will receive \$430,684 to revitalize programming by paying for additional corrections deputies in the county jail, reducing the crime rate, and enhancing jail efficiency. Additional personnel will allow officers to better manage the inmate population, improving facility safety. The Lincoln County Sheriff's Office (LCSO) will use its funds to hire three corrections deputies, with the goals of restoring inmate programming and improving jail safety. The two programs that will be reinstated are Successful Achievements in Living (SAIL) and the Inmate Work Crew. SAIL teaches responsibility, holding inmates</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	accountable for their actions, training them not to use excuses for behavior that got them in jail, and to provide them the skills required to make better decisions. The Inmate Work Crew allows inmates to work under corrections supervision in the community. Both programs have been successfully tested at the county jail.	
<u>MT</u>	<p><u>Fort Belknap Indian Community - \$2,243,425</u></p> <p>The Fort Belknap Police Department (FBPD) will receive \$2,243,425 to improve FBPD's detention facilities through the hiring of much-needed staff. The new personnel will improve overall officer safety and allow more efficient use of critical law enforcement resources, for instance, by eliminating the transporting of detainees for the 230-mile roundtrip to Roosevelt County, enabling law enforcement personnel to focus on their primary mission—protecting citizens. FBPD will use its funds to hire 14 qualified persons at its newly constructed Adult Detention Facility (ADF), 13 positions for its current facility (due for renovation this year), and one detention supervisor, who will oversee both locations (for a total of 28 positions). The renovated facility will house adult offenders on a short-term basis, while ADF will house longer-term detainees.</p>	Category 3
<u>MN</u>	<p><u>Pine County, Minnesota - \$153,336</u></p> <p>Pine County will receive \$153,336 to assist the county with community supervision of pretrial offenders (usually released with conditions related to crime-free and substance-free behavior), hire a probation agent, and promote economic recovery through education and awareness. The county will use its funds to 1) hire a pretrial probation agent, who will supervise conditional release offenders—the agent will enter probationer data into the electronic case management system, which downloads into the statewide database, accessible to</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	local dispatch and officers; 2) purchase chemical dependency and mental health resources for the new county jail, which will use these resources in its current programming; and 3) support psychiatric intake evaluations, assessment, intervention, and medication management for jail inmates. The provider will also supply mental health information and jail staff training.	
<u>MN</u>	<p><u>Kanabec County Minnesota - \$859,142</u></p> <p>Kanabec County will receive \$859,142 to enable the county to 1) hire and train staff to open the new county jail by January 1, 2010, and 2) reduce the budget, increase the revenue by ensuring surrounding counties house their inmates, and open up 96 beds by 2012 by hiring seven additional staff. The Kanabec County Sheriff's Office (KCSO) will use its funds to hire one jail sergeant/reintegration advocate, who will 1) meet with inmates; 2) coordinate appointments with the jail nurse; 3) introduce inmates to KCSO programming, for instance, AA, NA, and Pilot Outreach; and 4) work closely with partner organizations, such as Family Services, Mental Health Services, and the Lakes and Pines Community Action Council on inmate release plans. The funding will also enable KCSO to hire seven corrections officers to help staff the new jail.</p>	Category 3
<u>OR</u>	<p><u>Josephine County - \$403,969</u></p> <p>Josephine County will receive \$403,969 to reduce crime associated with drug and alcohol use, reduce the recidivism of jail inmates whose criminal involvement is propelled by their drug/alcohol use, and to increase the timely flow of intelligence and information currently inaccessible. The county will use its funds to 1) increase inmate access to drug and alcohol resources, both in custody and after release; 2) increase intra- and interagency access to inmate phone system intelligence through the establishment of a formal procedure; 3) develop reports (regarding issues such as inmate trends and jail utilization) that</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	will allow the jail commander to better manage limited resources; and 4) develop specific reports, as requested by other law enforcement agencies, that would provide information leading to prevention, arrests, or prosecution.	
<u>MN</u>	<p><u>Martin County - \$282,887</u></p> <p>Martin County will receive \$282,887 to pay for correctional officers to fill vacant positions, improve the operations of the Martin County Jail (MCJ), and increase MCJ's contracted nursing services, including improved assessment and monitoring of inmates and other referrals for medical and mental health needs. MCJ will use its funds to 1) hire correctional officers (filling positions vacant for the past 6 months); 2) maintain jail licensing standards and essential services; and 3) increase the number of nursing service hours. Adequate jail staffing will make it possible for MCJ to continue conducting up to 50 random drug tests per week on behalf of community supervision programs (adult probation and drug court). Currently, MCJ is so understaffed that the jail programmer is doing floor duty; once hiring is complete, the programmer will be able to focus on regular work: expanding jail programs and services and better monitoring the pretrial conditional release and furlough cases. Through this project, collaborative relationships will be established and maintained with community and other criminal justice organizations.</p>	Category 3
<u>MS</u>	<p><u>Mississippi Band of Choctaw Indians - \$284,488</u></p> <p>Choctaw Tribal Court Services will receive \$284,488 to provide entry-level employment in community corrections (for three "Probation Officer I" positions) through a mentoring relationship with experienced career probation officers, and to provide crime prevention and intervention through a constant presence of</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	community probation officers knowledgeable of the community and the tribal justice system. The Choctaw Tribal Court will use its funds to provide hands-on experience (mentoring) to entry-level employees in the field of community corrections, which will help to increase clients' knowledge about the tribal justice system, the resources available (on and off reservation), and entrepreneurship. The program will also develop clients' employment skills (interviewing, computer basics, researching opportunities, etc.), as well as their level of education obtained from start of probation (high school diploma/GED/community college, etc.)	
<u>TN</u>	<p><u>Franklin County Government - \$382,241</u></p> <p>Franklin County will receive \$382,241 to 1) immediately hire three new employees and retain three employees; 2) reduce the average community corrections caseload; 3) reduce the crime rate and recidivism of inmates served by the program; and 4) teach inmates job-readiness skills to locate and maintain employment. The Franklin County Community Reentry (FCCR) will use its funds to hire a probation officer who will provide full-time job readiness and individual job placement services to inmates. This individual will be responsible for marketing and negotiating employment opportunities for inmates prior to and after release from the county jail. A detention specialist will be hired to provide GED instruction, teach vocational skill training modules, and provide life skills training. A county community reentry probation officer will be employed to provide follow-up services for released offenders, case management, and accounting statistical data and reporting.</p>	Category 3
<u>AR</u>	<p><u>City of Lake Village - \$201,893</u></p> <p>The City of Lake Village will receive \$201,893 to enhance the services provided</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	by the Lake Village Jail. Currently, the facility does not comply with Arkansas state standards regarding the number of employees. Although Lake Village Police Department (LVPD) currently cross trains the dispatchers and jailers, they currently have a total of four people who fill both positions. The lack of staff does not allow for both a male and female to be on duty at any time. Hiring three jailers/dispatchers would allow Lake Village to be in compliance with state standards. LVPD will use its funds to hire and cross train three additional jailers/dispatchers, purchase and install a digital radio system, increase jail capacity (due to additional employees) to 22 beds, and make additional referrals for mental health issues and drug abuse. Additional jailers and dispatchers would allow for observation of inmates allowing jailers to make referrals for evaluation for mental health, drug abuse, and other health-related issues.	
<u>WY</u>	<p><u>Crook County Community Juvenile Services Board - \$437,792</u></p> <p>The Crook County Community Juvenile Services Board (CCJSB) will receive \$437,792 to reduce youth delinquency and status offenses, youth recidivism, and out-of-home placements, as well as create five new jobs in Crook County in the juvenile justice field. CCJSB will use its funds to create five new jobs and as a result reduce youth recidivism and make the targeted group of youth more employable. With the addition of youth service officers, the caseload for community correctional officers will be reduced, resulting in higher quality prevention and supervision activities.</p>	Category 3
<u>MO</u>	<p><u>Dunklin County - \$208,261</u></p> <p>Dunklin County will receive \$208,261 to increase full-time employment, provide safer work conditions at the correctional center for employees and inmates,</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	provide security when transporting inmates, and manage inmates more effectively. The county will use its funds to hire three full-time corrections officers. New hires will allow present employees to be more accessible to inmates, booking time can be shortened (which will allow for safer working conditions), more cell and bed checks will be administered, and additional security will be provided in the transportation of inmates. Additional hires will enable the administrator to run a safer, more efficient correctional facility and create a better working environment by assigning work responsibilities to additional personnel.	
<u>WI</u>	<p><u>Marinette County - \$530,543</u></p> <p>Marinette County will receive \$530,543 to increase staff levels, which will improve the coordination and delivery of jail inmate education programs. The program will also assist with inmate transitional services, enhance corrections, and provide increased staffing of the jail's Huber area, allowing continuous coverage. The county will use its funds to hire a full-time inmate education and programs' officer, increase three part-time corrections officers to full-time, and provide comprehensive education opportunities for incarcerated inmates to increase employability and reduce criminal behaviors and recidivism. The funds will also help to create classrooms, program rooms, and an office area for the programs officer. The project will provide comprehensive inmate programs and educational opportunities, and an addendum test site in the jail for onsite GED testing.</p>	Category 3
<u>MN</u>	<p><u>Northwest Regional Correction Board - \$539,306</u></p> <p>The Northwest Regional Corrections Center (NRCC), will receive \$539,306 to</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	create a more effective jail operation, reduce caseload size for probation agents, and provide offenders with tools they need to effectively transition from incarceration to responsible, law abiding and productive members of society. NRCC will use its funds to create a new probation agent position, hire additional full-time corrections officers to improve classification processes, and implement positive behavioral reinforcement techniques. The funds will also be used to create a position responsible for facilitating cognitive behavioral programming and to expand existing mental health services. The project will help improve the inmate classification and assessment process and provide improved mental health follow-up services.	
<u>OH</u>	<p><u>City of Gallipolis - \$105,500</u></p> <p>The Gallipolis Municipal Court (GMC) will receive \$105,500 to decrease probation caseloads, resulting in a positive impact on offenders who have substance abuse or mental health issues and thereby reducing the risk of reoffending. The City of Gallipolis will use its funds to hire one probation officer to decrease the current caseload assigned to individual probation department personnel from an average of 560 cases per officer to 425 cases per officer. This will also allow the Court to increase the number of yearly assessments of offenders from 215 a year to an average of 325 per year. With a new position the department will be in a better position to hold offenders accountable to the requirements of paying all restitution to victims of crimes, fines, and court costs.</p>	Category 3
<u>WA</u>	<p><u>Pacific County - \$247,700</u></p> <p>Pacific County will receive \$247,700 to reduce delays during court proceedings (i.e., arraignments, probable cause hearings, and trials); reduce employee</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	overtime (mandatory and regular); reduce delays in fingerprinting of sex offenders, firearm permits, and background fingerprinting for employers; and assist with smoother jail functions. The county will use its funds to hire and train two project officers and to strategically place them in positions that will minimize overtime, delays in bookings, court proceedings, and delays in transports.	
<u>OR</u>	<p><u>Columbia County - \$457,397</u></p> <p>Columbia County will receive \$457,397 to demonstrate to the community the value of proactive mental health services for those who are incarcerated in jail, to reach out to those who do not or cannot ask for treatment in a correctional setting, and to enhance the county's ability to decrease the number of missed diagnoses of truly ill individuals. The Columbia County Sheriff's Office (CCSO) will use its funds to hire two full-time correctional deputies for 2 years and subscribe to Correctional Mental Health Services, a subsidiary of Conmed Healthcare Management services. The two employees and the Mental Health Services program will create a more seamless net of mental health services in the county, giving inmates who are in custody and then released into the community a better chance at staying on their mental health programs and out of jail.</p>	Category 3
<u>OK</u>	<p><u>Adair County - \$150,842</u></p> <p>Adair County will receive \$150,842 to improve and expedite identification of offenders, reduce the number of fingerprint submissions, and improve the Sheriff Office's ability assist and share information with other partners in law enforcement. The Sheriff's Office will use its funds to create one local job and improve working conditions for all detention staff, increase the number of fingerprint submissions to the Oklahoma State Bureau of Investigation, and</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	decrease the percentage of submission rejections. The added technical position and portable live scan unit will improve the county's ability to provide assistance to its partners in the law enforcement and corrections communities.	
<u>MI</u>	<p><u>Sanilac County - \$223,675</u></p> <p>Sanilac County will receive \$223,675 to establish an offender management system within the Sheriff's Department (SCSD) to aid the corrections personnel in sharing information among agencies and provide for the efficient management of offender populations. The county will use its funds to hire and train an employee to facilitate the management program and act as a liaison between SCSD and other rural jails and law enforcement agencies. The funding will also help to develop the protocol for offender management and information sharing to occur; purchase software and hardware to facilitate the management program; implement the Offender Management Initiative utilizing the protocol, software, equipment, and extensive training in those areas; and evaluate the Offender Management Initiative within the jail and assess how it enhances collaboration between the jail and other agencies.</p>	Category 3
<u>WA</u>	<p><u>Grant County - \$259,230</u></p> <p>Grant County will receive \$259,230 to hire two full-time corrections officers to enhance the safety of the corrections staff and inmates, allow for expedited processing of new arrestees, and provide a more timely classification and housing unit placement of inmates, which in turn allows staff to more quickly identify and address specific inmate needs (e.g., educational, medical, and treatment). The Grant County Sheriff's Office (GCSO) will use its funds to provide two additional corrections staff for the Corrections Division's maximum</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	security correctional facility. These two additional correction officers will increase staff's ability to provide increased numbers of arrestees processed into and out of the facility, an increased officer presence in maximum security housing areas, a greater level of staff and inmate safety during inmate transport details, extra security for court details, a more timely inmate classification and housing unit assignment, and quicker assessments of those inmates eligible and viable for recommendation to diversion programs such as the local Drug/DUI Court.	
<u>WA</u>	<p><u>City of Aberdeen - \$837,721</u></p> <p>The City of Aberdeen will receive \$837,721 to improve the rural jail operation and provide a Community Service Diversion Program. This grant will allow Aberdeen to continue to operate its 18-bed jail facility. This grant will also allow the city to provide services to inmates previously unavailable. The Aberdeen Police Department (APD) will reemploy the corrections officers that had been laid off due to lack of funding, and two additional corrections officers will be hired, trained, and deployed in the correctional facility. One of the new hire's primary responsibilities will be to coordinate and facilitate jail diversionary programs under the direction of the corrections supervisor and community partners. Enhanced staffing will allow APD to work with the Municipal Court to provide a diversion from jail to the needed community service projects such as park improvement and town cleanup. Enhanced staffing will also allow coordination and assistance with court-ordered assessments for alcohol and drug abuse as well as mental health evaluations.</p>	Category 3
<u>GA</u>	<p><u>Morgan County - \$434,964</u></p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>Morgan County will receive \$434,964 to hire six new detention officers; improve screening, assessment, and treatment services to inmates; and assign housing based on classification. The goal is for all new positions to be filled and state training requirements met prior to opening the new detention facility. The Morgan County Sheriff's Office (MCSO) will use its funds to create six new detention officer positions; hire and train qualified persons for the new positions; correctly screen and access each person booked at the detention center; and make appropriate housing assignments. Screening and assessment of individuals detained in the facility will be improved by training officers in proper booking procedures, including screening and assessment of each detainee's physical health, mental health, chemical dependence, and security risks. Detainees will then be assigned to housing units based on this screening and assessment, and those with medical and mental health issues will be referred to the medical staff for proper treatment.</p>	
<u>IL</u>	<p><u>Marion County, IL - \$329,963</u></p> <p>Marion County will receive \$329,963 to provide additional staff to assess and screen inmates with mental health and/or substance abuse (MI/SA) issues and improve operations by demonstrating a better understanding of MI/SA and the appropriate response to inmates. Lastly, the program will have a positive impact to the county by working with inmates who have a MI/SA diagnosis to access outpatient treatment thereby reducing recidivism. The Marion County Jail will use its funds to hire and train officers in the area of community corrections, improve screening and assessment of inmates with possible MI/SA diagnosis, improve access to treatment needs during incarceration, and coordinate appropriate treatment services upon release from facility. By creating three new positions within the jail, inmates will be provided immediate access to officers who are trained to promote not only security but also mental health treatment</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>services. Facility officers will also be provided training throughout the year from area outpatient treatment providers to improve skills in interacting with inmates with an MI or SA diagnosis. Community Correctional Officers will ensure that persons who have received certain treatment within the facility have access to these services in the community by working with area agencies to provide continuity of care after release.</p>	
<u>CO</u>	<p><u>Montezuma County - \$394,428</u></p> <p>Montezuma County will receive \$394,428 to better obtain, provide, and educate inmates about available services and then link those services with the inmates. The objective is to get the needed screening for the inmates so they can receive the help they need, benefitting themselves and the community. The Montezuma County Sheriff's Office Detention Center (SODC) will use its funds to create four new positions. The first position would be an additional nurse, which would allow more thorough screenings and assessments to address problems such as MRSA, mental health issues, and substance abuse. SODC will also hire a Screening Program Manager, who would oversee the screening and assessment process, evaluate programs and match them to inmate needs, and coordinate these efforts with the nurses and deputies. Lastly, the addition of two detention deputies will improve screening when booking and releasing inmates. At the present time, detention deputies can only perform the basic security jobs and do not have time for in-depth screenings and evaluations of inmates entering or exiting the facility that would allow them to assist inmates in getting needed care with substance abuse or mental health issues. Addressing these issues will help reduce inmate recidivism.</p>	Category 3
<u>ID</u>	<p><u>Idaho Department of Correction - \$129,524</u></p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>The Idaho Department of Correction (IDOC) will receive \$129,524 to develop a comprehensive document to guide local and state officials in creating a Regional Offender Management Center (ROMC) and develop a strategy that uses both state and county expertise and creates partnerships with the Idaho Department of Correction, county sheriffs, county probation, treatment providers, and community resources to leverage the work of all parties for the benefit of the state's criminal justice system. IDOC will use its funds to employ a consultant to complete a feasibility study in one judicial region in the state. The consultant will conduct a comprehensive cost-benefit analysis and feasibility study in each county of the pilot region; produce a detailed and comprehensive guidance document describing a ROMC model, including but not limited to, governance and funding mechanisms, staffing needs and job creation resulting from the model; and outlining applicability and a strategy for statewide implementation. The consultant will use experts in financing, governance, offender management, and criminal justice to develop a model that will improve Idaho's criminal justice system for both incarcerated offenders and those on probation or parole.</p>	
<u>GA</u>	<p><u>Laurens County Sheriff's Department - \$547,540</u></p> <p>The Laurens County Sheriff's Department (LCSD) will receive \$547,540 to fill five vacant positions and to avert the layoff of three other sworn officers. Laurens County will use its funds to fill two jail housing officer vacancies in the Detention Section, one sworn transport officer vacancy in the Detention Section, one sworn deputy vacancy in the Courthouse Security Section, and one sworn criminal investigator vacancy in the Investigations Section. The funding will also help retain two Process Servers and two Child Abuse Investigators. By filling the five vacant positions and retaining the Process Servers, the LCSD patrol and traffic deputies can expend more hours per day patrolling the county, cities, and</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	communities, checking the security of homes and businesses, and continue to respond to calls as quickly as possible. Filling the two child abuse investigators positions will increase the time and effort spent on child abuse cases, resulting in more convictions and incarcerated abusers.	
<u>NM</u>	<p><u>Lea County - \$293,851</u></p> <p>Lea County will receive \$293,851 to preserve two full-time detention department positions, improve and enhance criminal justice information sharing across rural law enforcement agencies, and improve the administration and operations of Lea County Detention Center (LCDC). LCDC will use its funds to preserve two full-time detention positions that will allow for two current employees to serve more effectively as a program officer and a Prison Rape Elimination Act (PREA) coordinator. It will enable LCDC to establish an improved system of screening, assessment, and treatment services needed to address the substance abuse recovery of incarcerated individuals. LCDC will also purchase and install a new detention management software system that will enable easy access and quick response time to requests from other agencies and will also greatly improve internal administration and operations of LCDC. The system will streamline the booking and release process, facilitate federal and state corrections reporting, improve inmate tracking and processing, and provide computerized inmate and facility accounting.</p>	Category 3
<u>OR</u>	<p><u>Tillamook County, Oregon - \$478,764</u></p> <p>Tillamook County will receive \$478,764 to rehire a Court Security Deputy who had been reassigned and to retain the projected loss of three Corrections Deputies. The Tillamook County Sheriff's Office (TCSO) will use its funds to</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	recall one Corrections Deputy to employment at the jail; reestablish the Court Security Deputy; preserve the control technician position, thereby maintaining the position of the Deputy Work Crew Supervisor; and preserve one Corrections Deputy position, thereby maintaining the position of warrants/transport deputy. Continuation funding of the three proposed reductions and the recovery of one position will ensure quality public safety to the public, provide Court House employees a safe working environment, and provide safety for both inmates and the staff supervising the population within the Tillamook County Jail.	
<u>NC</u>	<p><u>Lee County Sheriff's Office - \$235,700</u></p> <p>Lee County will receive \$235,700 to enhance the safety and security of the employees, inmates, and visitors to the Lee County Jail. The addition of two full-time detention officers would allow the sheriff's office to provide better supervision of inmates, more staff for health care needs, and enhance sanitation in the facility. Lee County will use its funds to hire two additional detention officers to manage and supervise the offenders within its population and purchase additional screening equipment that would provide better assessment of potential problems at booking. The additional officers and equipment will enhance the Center's ability to share information with other agencies and detention centers, reduce backlog and time spent in the processing of inmates, and provide better assessment of inmates so that they are handled with the upmost care, recognizing their mental and medical needs to reduce the death and injury rate.</p>	Category 3
<u>KS</u>	<p><u>Brown County Sheriff - \$321,999</u></p> <p>Brown County will receive \$321,999 to enhance jail operations by retaining two</p>	Category 3

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>current staff members and hiring two new positions, thereby avoiding layoffs and/or furloughs of corrections staff. The Brown County Sheriff Department (BCSD) will use its funds to retain current staffing levels and hire and train two additional full time corrections positions in preparation for the move into a new facility next spring. Adding additional staff members will assist in the transition to the new facility, increase direct interaction between the staff and inmates, and improve screening and assessment. BCSD has received recommendations to have staffing levels of nine full-time employees in order to run the new facility effectively and safely. With this level of staffing, BCSD would be able to maintain one officer on duty constantly in the control center, thus allowing this officer direct supervision of inmates 24 hours a day. A second staff member on duty would perform the day-to-day necessities of running the facility by processing, feeding, assessing, providing medications, and transporting inmates. BCSD and the county will benefit from the new facility and staff by creating a much safer and more secure correctional facility.</p>	
<u>ME</u>	<p><u>County of Lincoln - \$412,655</u></p> <p>Lincoln County, Maine, will receive \$412,655 to 1) increase the flow of law enforcement information across jurisdictions throughout Maine, increasing the ability of law enforcement agencies to combat crime and drugs; 2) assist in Maine's economic recovery; and 3) save taxpayer dollars by streamlining the function of law enforcement officers.</p> <p>The Lincoln County Sheriff's Department (LCSD) will use its funds to create a statewide Rural Intelligence Information Sharing Team (RIIST). LCSD will be able to 1) retain an existing crime analyst; 2) hire an additional full-time crime analyst, who will expand the intelligence bulletin statewide, better serving northern Maine; and hire a part-time assistant crime analyst, who will support RIIST's work.</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

<u>AZ</u>	<p><u>Navajo County - \$258,498</u></p> <p>Navajo County will receive \$258,498 to facilitate information sharing and intelligence-led policing among county, municipal, and tribal law enforcement agencies in Navajo County by creating the new position of criminal analyst/investigator (the CAI) in the Navaho County Attorney's Office (NCAO); the CAI will 1) collect and analyze data on a countywide basis, uncovering connections between suspects and their confederates; 2) help manage the use of confidential informants; and 3) coordinate the investigative activities of the various county law enforcement agencies.</p> <p>NCAO will use its funds to hire a new CAI, purchase hardware and software to support the CAI's activities, and produce quarterly reports, based on data from all participating law enforcement agencies, tracking the improved quality and efficiency of information sharing and intelligence-led policing attributable to the project. Under the direct supervision of the County Attorney, the CAI will work with all local law enforcement agencies to develop information-sharing methodologies and databases, provide guidance regarding the principles of intelligence-led policing, analyze data and identify opportunities for collaboration, and provide hands-on assistance with crime investigations.</p>	Category 4
<u>MI</u>	<p><u>Grand Traverse Band of Ottawa and Chippewa Indians - \$397,909</u></p> <p>The Grand Traverse Band (GTB) will receive \$397,909 to create internal and external data sharing capabilities that ensure the safety of GTB members under tribal jurisdiction. The project will 1) update the GTB criminal database with case tracking software and expanded Law Enforcement Information Network</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>(LEIN) access and 2) implement data sharing both within GTB and with other Michigan tribes, the State of Michigan, and federal entities.</p> <p>GTB will 1) hire a data entry clerk to update criminal histories; 2) upgrade tribal court, prosecutor, and law enforcement technology and capabilities; 3) implement an interdepartmental immediate notification system; and 4) hire a project coordinator to implement data sharing with other Michigan tribes. Each project activity is designed to strengthen the criminal justice system, and project gains will continue to benefit GTB after the project has ended.</p>	
<u>AL</u>	<p><u>Alabama Criminal Justice Information Center - \$1,883,320</u></p> <p>The Alabama Criminal Justice Information Center (ACJIC) will receive \$1,883,320 to expand information sharing to at least 100 additional rural jurisdictions through the adoption of Mobile Officer Virtual Environment (MOVE) and the major information sharing components that it supports. The project will enable ACJIC to efficiently produce shared data and make field officers more productive.</p> <p>Alabama will use its funds to 1) install MOVE hardware and software in 100 rural law enforcement agencies and 2) hire help desk personnel, and IT personnel to support MOVE promotion, installation, and training. The products that will be generated by this project will have a dramatic impact on two major aspects of national criminal justice policy and practice: 1) rural information sharing and 2) criminal apprehension. This will give rural law enforcement the same tools that are being used in urban areas and by the state.</p>	Category 4
<u>VT</u>	<p><u>Vermont Department of Public Safety - \$1,055,355</u></p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>The Vermont Department of Public Safety will receive \$1,055,355 to 1) add several justice databases from state and federal agencies and 2) create a functioning link with Vermont's behavioral health information exchange network and improve the functioning of law enforcement, prosecution, courts, and corrections through the quick exchange of information. The project will also develop mapping capabilities, a more data-driven approach to the deployment of law enforcement officers.</p> <p>Vermont will use its funds 1) to purchase document exchange software that allows the exchange of information, a mapping component, and database connectivity for query purposes and 2) to hire one information technology specialist who will serve as the project's coordinator and technical lead along with user administration. Improved information transfer in real time—for instance, concerning sex offenders—between the state Department of Corrections and the Vermont Criminal Information Center will increase public safety and make the criminal justice system more efficient.</p>	
<u>WA</u>	<p><u>Stevens County - \$246,795</u></p> <p>Stevens County, Washington State, will receive \$246,795 to enable the county to hire two records officers/criminal analysts for its Records Division, positions that the county could not otherwise create because of its economic distress. These officers will facilitate and improve the sharing of criminal justice information between partner local, regional and multistate criminal justice agencies and networks.</p> <p>In addition to hiring the two officers, the Stevens County Sheriff's Office (SCSO) will use its funds to provide training in criminal justice intelligence</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	management and related privacy issues to ensure compliance with federal and state laws and guidelines. These two positions are critical to the success of the Intelligence-Led Policing project and adding the Chewelah, Kettle Falls Police, and Colville police departments to a shared database. Additional database management is imperative when adding agencies onto a shared system where officers will be entering and accessing data from commonly shared tables, such as names and vehicles.	
<u>NM</u>	<p><u>State of New Mexico, Governor's Office - \$266,512</u></p> <p>The Administrative Office of the District Attorney (AODA) of the State of New Mexico will receive \$266,512 to provide valuable offender data and photos to New Mexico state and local criminal justice agencies. The objective will improve criminal justice information sharing of across New Mexico through a data interface into AODA's Case Management System (CMS).</p> <p>AODA will use its funds to hire a program manager and a program coordinator to coordinate the implementation and manage the information sharing program. This interface will include offender booking data and photo histories, which will feed into the New Mexico Justice Information System (NM JISC). NM JISC will capture data from all 32 county jails' and 5 tribal detention centers' booking systems. Ready access to this data will help lower the incidence of law enforcement shootings, domestic violence, driving under the influence, and overall crime.</p>	Category 4
<u>AL</u>	<p><u>Alabama Criminal Justice Information Center - \$1,464,323</u></p> <p>The Alabama Criminal Justice Information Center (ACJIC) will receive</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>\$1,464,323 to provide the National Crime Information Center (NCIC) access to up to 352 agencies in 49 counties in Alabama. The objective is to help rural law enforcement agencies 1) combat crime and illegal drugs, 2) purchase information technology, 3) decrease the time and resources they expend running NCIC queries on persons and property, and 4) decrease the cost of accessing NCIC.</p> <p>ACJIC will use its funds to deploy the necessary hardware and software to 352 rural agencies to provide them NCIC access, hire a crime information agent at ACJIC for 24 months, who will provide services to all criminal justice agencies in eight rural counties, and fund 50 percent of the salary and benefits for one full-time ACJIC employee who will be responsible for project oversight. This project will have a dramatic impact on rural information sharing and criminal apprehension. NCIC access will give rural law enforcement the same valuable tools available in urban areas.</p>	
<u>OR</u>	<p><u>City of Toledo, Oregon - \$276,312</u></p> <p>The City of Toledo, Oregon, will receive \$276,312 to provide the Toledo Police Department (TPD) the resources necessary to share information with other local, regional, and federal law enforcement agencies and to improve TPD's ability to provide information to officers in the field. The project is intended to foster a method and system for information sharing with local and regional law enforcement agencies (LEA) under coordinated information sharing initiatives.</p> <p>TPD will use its funds to purchase hardware, software, and contracted support staff required to participate in a multiagency Computer Aided Dispatch (CAD)/Records Management System (RMS). The system is associated with COPLINK, which collects and analyzes data received from over 3,000 other law enforcement agencies Records Management Systems. Once implemented,</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	department staff will have access to national records databases enhancing the ability to identify and apprehend criminals as well as making our intelligence available to other regional and national agencies.	
<u>MO</u>	<p><u>Lebanon Police Department - \$1,202, 024</u></p> <p>The Lebanon Police Department (LPD), Missouri, in conjunction with the Laclede County Sheriff's Office (LCSO), will receive \$1,202,024 to upgrade the LPD's and LCSO's office records management system so that it is compatible with Missouri's MoDEX System of information sharing.</p> <p>At present, LPD and LCSO do not have a database that allows criminal and investigative information to be shared with multiple agencies. The police department's database, moreover, is not compatible with that used by the sheriff's office and neither is compatible with the state's database. LPD and LCSO will use grant funding to update their records management and information databases so that they are compatible with each other and with the state's database. Officers in their patrol vehicles also will have access to equipment that allows them to share information with these databases, facilitating investigations and improving officer safety. Funding also will be used to hire technical specialists, who will implement and maintain the shared databases.</p>	Category 4
<u>CO</u>	<p><u>Routt County - \$1,547,392</u></p> <p>Routt County, Colorado, will receive \$1,547,392 to allow the county to enhance its law enforcement information sharing. The county will use its funds to hire a</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>project manager and an information services specialist to oversee and implement the project. The county will specify, competitively purchase, and implement hardware, software, and data needed for multiagency implementation of CAD/RMS systems that meet U.S. Department of Justice technology standards and provide enhanced information sharing to partner agencies. The CAD/RMS systems will, at a minimum, include 1) CAD, live mapping, E-911 interface, real time mobile compatibility with licensing for 35 mobile units, multijurisdictional information sharing, NCIC/CCIC interface, jail management, RMS, RMS state and federal compatible reporting, evidence management, imaging, crime mapping and analysis, traffic, licenses and permits, and civil, court, and equipment maintenance capabilities.</p>	
<u>LA</u>	<p><u>St. Landry Parish Sheriff's Department – \$487,585</u></p> <p>St. Landry Parish Sheriff's Department (SLPSO), Louisiana, will receive \$487,585 to enhance its collection and sharing of criminal justice information across the department by implementing a paperless incident report creation, submission, and retention system.</p> <p>SLPSO will use its funds to hire a digital records database coordinator, who will have a two-fold responsibility: 1) to convert prior incident reports into digitally stored files, and 2) to ensure the input of new reports. The funds will also be used to 1) buy and install equipment, software, and support services; 2) train personnel, and 3) implement results surveying.</p>	Category 4
<u>AL</u>	<p><u>City of Ashland – \$113,019</u></p> <p>City of Ashland, Alabama, will receive \$113,019 to improve the capacity of the</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>Ashland Police Department to use technology and information sharing to combat crime in the community.</p> <p>Ashland will use the funds to hire a records management clerk (RMC). The RMC will be responsible for reporting and data entry, integrating the information, and conducting electronic exchanges with other law enforcement agencies and databases. Project funds will also be used to purchase and install records management, dispatch recording, and live scan fingerprint systems. A computerized records management system (RMS) will allow 1) APD officers to prepare and file all standard reports online, including incident reports, arrest reports, accident reports, and citations; 2) APD to maintain mugshots and fingerprints together with accurate information that can be linked to known criminal associates; and 3) APD to record, computerize, and track the call log for activities associated with each call. Accurate UCRs can be prepared and submitted. The project will result in increased sharing of information and intelligence, improving arrest and clearance rates.</p>	
<u>TX</u>	<p><u>Duval County, Texas – \$796,200</u></p> <p>Duval County, Texas, in conjunction with the Duval County Sheriff's Department (DCSO), will receive \$796,200 to enable DCSO to use an Integrated Law Enforcement Records Management System (LERMS), reduce crime and increase arrests using the enhanced LERMS and data sharing ability, and Increase coordination with neighboring counties and federal jurisdictions.</p> <p>The county will use its funds to purchase and install an Integrated Law Enforcement Records Management System (LERMS) that links each law enforcement jurisdiction (and vehicles via mobile computers) in the county to a common database within the LERMS allowing officers in each jurisdiction to be dispatched from a Computer Aided Dispatch (CAD) position that is a component</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	of the LERMS and is seamlessly linked to the incident management software and the jail management software and is interfaced to N-Dex, T-Dex, VINES, TLETS, and other regional and national data sharing sites. The funds will also be used to reduce crime and increase arrests using the enhanced LERMS and data sharing ability, and increase coordination with neighboring counties and federal jurisdictions via electronic means using enhanced data integration to reduce trafficking of undocumented immigrants and illegal controlled substances through the county.	
<u>WA</u>	<p><u>Lummi Nation – \$455,548</u></p> <p>The Lummi Nation, Washington State, in conjunction with the Lummi Indian Business Council, will receive \$455,548 to provide the Lummi Nation Police Department (LNPd) with a next-generation integrated Incident-Based Report software system. The purpose of this software is to preserve data integrity, enhance departmental efficiency, allow sharing and accessing of critical data from one centralized database, integrate with other tribal, regional, county and municipal Systems, and facilitate greater collaboration with area law enforcement agencies.</p> <p>The Lummi Nation will use its funds to implement Longarm, a next-generation integrated Incident Based Report software system. The funds will also be used to hire a sex offender registration technician/detective (SORTD) and a data crime analyst (DCA). The SORTD will investigate sex offender-related crimes, maintain records on all rated sex offenders, ensure offenders are in compliance with state and tribal mandates, be responsible for technical aspects of evidence gathering, protection, and handling, and provide community education regarding sex offender awareness. The DCA be responsible for strategic criminal intelligence analysis, technical crime analysis and reporting, date collection,</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	research and reporting of crime trends using information from criminal justice system and community agencies, participate in collection of information regarding criminally involved individuals, organized crime, terrorist groups and threats to public officials or residents, maintaining LNPd computer equipment, and providing recommendations for new technology as needed.	
<u>CA</u>	<p><u>Mendocino County - \$2,067,129</u></p> <p>Mendocino County, California, in conjunction with the Mendocino County Sheriff's Office (MCSO), will receive \$2,067,129 to upgrade its information sharing technology.</p> <p>MCSO's current information sharing system is outdated and no longer offers a fast, secure method of transferring information. Grant funding will be used to install a new and fully integrated public safety software suite that allows for efficient and secure data transfer among MCSO internal departments and with other local, state, and federal law enforcement agencies.</p>	Category 4
<u>WA</u>	<p><u>Grant County - \$244,351</u></p> <p>Grant County, Washington State, in conjunction with the Grant County Sheriff's Office (GCSO), will receive \$244,351 to hire an additional IT technician.</p> <p>Many smaller offices within Grant County lack data connectivity in their patrol cars and are unable to access information sharing databases from their offices. GCSO would use project funding to hire an additional IT technician, who will maintain existing equipment and technology and implement new technologies in areas that currently do not have them. Funding also will be used to purchase</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	equipment that will connect several areas in Grant County to the county's criminal justice information database.	
<u>MO</u>	<p><u>St. Clair County - \$679,130</u></p> <p>St. Clair County, Missouri, in conjunction with the St. Clair County Sheriff's Office (SCCSO), will receive \$679,130 to create a Regional Records Management System and hire personnel.</p> <p>Though St. Clair County and its environs have seen an increase in methamphetamine production and marijuana cultivation over the past several years, SCCSO still lacks a central criminal justice information database. With grant funding, SCCSO will create a Regional Records Management System (RRMS) through multijurisdictional and multiagency collaboration. Funding will also be used to hire a computer analyst, who will be responsible for RMMS's development, implementation, deployment, maintenance, and administration.</p>	Category 4
<u>WI</u>	<p><u>City of Menomonie - \$2,305,525</u></p> <p>The City of Menomonie, Wisconsin, in conjunction with the Menomonie Police Department (MPD), will receive \$2,305,525 to implement a countywide information and intelligence database.</p> <p>Menomonie and the surrounding counties lack a central criminal justice information database. MPD will use project funding to implement a countywide information and intelligence database, accessible by multiple local law enforcement agencies. This database will allow MPD and other local agencies to</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	better combat and prevent local crime. MPD also will hire Information Technology staff to implement and maintain the database.	
<u>OH</u>	<p><u>State of Ohio Office of the Attorney General - \$2,000,287</u></p> <p>The State of Ohio Office of the Attorney General (OOAO) will receive \$2,000,287 to hire personnel.</p> <p>Many rural counties in Ohio do not have access to databases containing vital information such as palmprints, mugshots, and investigation and arrest records. OOAO will use project funding to hire personnel tasked with ensuring the statewide Integrated Automated Fingerprint Identification System (IAFIS) and BCI are upgraded as necessary, guaranteeing rural Ohio counties access to this critical criminal justice information. Enhancements to the state systems are required primarily so that rural agencies will have access to data that is already available to the major (regional) AFIS centers.</p>	Category 4
<u>WI</u>	<p><u>City of Sturgeon Bay - \$689,471</u></p> <p>The City of Sturgeon Bay, Wisconsin, in conjunction with the Sturgeon Bay Police Department (SBPD) and Door County Sheriff's Office (DCSO) will receive \$689,471 to enhance information sharing among local law enforcement officers.</p> <p>Drug-related crime and violence have increased in the Sturgeon Bay area over the past several years. While the police department and sheriff's office staff have access to a reliable information sharing database in their offices, they do not have such access in their patrol cars out in the field. SBPD and DCSO will use project funding to equip patrol cars with hardware and software so that allows</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	officers access the database. Funding also will be used to retain an information systems technician and a police officer, and hire a support staff person, who will help maintain the database.	
<u>NE</u>	<p><u>Nebraska State Patrol - \$781,934</u></p> <p>The Nebraska State Patrol (NSP) will receive \$781,934 to establish an information sharing database for local law enforcement officers in Nebraska.</p> <p>Most Nebraska law enforcement agencies lack the technology and manpower to identify, track, and analyze criminal activities. In addition, many agencies lack access to a central database that allows collaboration and sharing of criminal information and intelligence among multiple local, state, and federal agencies. NSP will use project funding to improve crime data collection and analysis via a multiagency, multijurisdictional information and intelligence database. To accomplish this goal, NSP will hire an applications developer to develop and administer the database. Finally, NSP will hire two crime analysts to improve services to local and state agencies.</p>	Category 4
<u>AR</u>	<p><u>Yell County - \$100,236</u></p> <p>Yell County, Arkansas, in conjunction with the Yell County Sheriff's Department (YCSO), will receive \$100,236 to develop 1) a shared information database and 2) a system to analyze crime trends and criminal data.</p> <p>Much of the county's law enforcement activities are handled by the sheriff's department. Smaller, local agencies do not have enough staff to collect, analyze, and compile crime data and information. With funding from this grant, YCSO</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	will hire an analyst, who will be tasked with collecting, analyzing, and compiling crime data and information from across the county. In addition, this employee will create a shared database, which will promote collaboration and better crime prevention and investigation by local law enforcement agencies.	
<u>KY</u>	<p><u>General Government Cabinet (Kentucky) - \$3,946,463</u></p> <p>The Office of the Attorney General of Kentucky, Office of the Prosecutors Advisory Council (PAC), on behalf of the Kentucky County Attorneys will receive \$3,946,463 to allow attorneys in rural counties to participate in the eWarrants System (eWS).</p> <p>The eWS is an automated system that facilitates active warrant information sharing among multiple law enforcement agencies in Kentucky. The system is online or being implemented in Kentucky's more populated counties and has drastically reduced the number of backlogged warrants in counties where it is available. With this funding, PAC will 1) purchase the equipment and technology needed to implement eWS in the state's rural counties; 2) hire personnel to install, maintain, and support the system; 3) facilitate a team approach to implementing eWS; and 4) provide judges, attorneys, and law enforcement officers with eWS training.</p>	Category 4
<u>WY</u>	<p><u>City of Riverton - \$1,467,672</u></p> <p>The City of Riverton, Wyoming, in conjunction with the Riverton Police Department, will receive \$1,467,672 to increase patrol officers ability to readily access information stored within a multijurisdictional database.</p> <p>Riverton will use its funds to hire an information technology employee to address the technological needs of the department. In addition, three patrol</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>officer positions which were cut by the city will be retained using the funds from this award. The city will also use the funds to provide a wireless network for communication. This project will increase Officers access to the National Crime Information Center (NCIC), immediately enter stolen property, increase recovery of stolen vehicles within a short time of reported theft, immediately enter reports, reduce downtime, and ultimately allow field officer access to offender information such as identity, criminal history, and other important data that would otherwise be unknown to the officer.</p>	
<u>MI</u>	<p><u>Sanilac County - \$566,647</u></p> <p>Sanilac County, Michigan, in conjunction with the Sanilac County Sheriff's Department (SCSD), will receive \$566,647 to establish a multiagency program to provide information sharing designed to facilitate improved services to the community.</p> <p>The county will use its funds to hire a coordinator to assist in revitalizing the economy and to act as liaison between SCSD and all county law enforcement agencies. The funds will also be used to assist with the development of a protocol for the information sharing to occur between agencies, the purchase of mobile laptop computers and software to facilitate the information sharing, and the implementation the Information Sharing Initiative using the protocol, software, equipment and extensive training in those areas. This increased information sharing will enable the different law enforcement agencies within the county to increase detection, enforcement, and prosecution of criminal activity through improved access to relevant data locally and nationwide.</p>	Category 4
<u>GA</u>	<p><u>City of Cordele, Georgia - \$424,123</u></p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>The City of Cordele, Georgia, will receive \$424,123 to retain five civilian positions within the police department in which the staff will be provided additional responsibilities as crime analysts, and to deploy a high-resolution wireless, digital, video camera network in areas of the community experiencing increased crime.</p> <p>Cordele will use the funds to retain five civilian staff who will be cross-trained as analysts. The grant funds will also be used for the purchase and installation of necessary equipment. Analysts will use active and passive video surveillance to improve detection, identification, capture, and conviction of offenders. Intelligence-Led Policing will also be integrated into the agency's daily operations.</p>	
<u>FL</u>	<p><u>Florida Fish and Wildlife Conservation Commission - \$197,082</u></p> <p>The Florida Fish and Wildlife Conservation Commission (FFWCC) will receive \$197,082 to provide access to crime intelligence collected by FFWCC officers during their patrol activities in Florida's rural areas and share this information with rural partner agencies across jurisdictional boundaries.</p> <p>FFWCC will use its funds to hire two crime intelligence analysts to set up and run the program. The analysts will analyze and collate intelligence data submitted by FFWCC officers, enter the data in an intelligence database, and disseminate the data through information-sharing portals and personal contact to the Division's partner agencies. This endeavor will assist rural law enforcement agencies in targeting prolific offenders across jurisdictional lines, identify and manage criminal hotspots, identify and investigate linked series of crimes or</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	incidents across jurisdictions, and facilitate problem-solving policing. The program will allow rural partner agencies to connect to resources, expertise, and information with the goal of maximizing the ability to detect, prevent, apprehend, and respond to criminal activity, thus combating rural crime in Florida.	
<u>ID</u>	<p><u>Idaho State Police - \$590,941</u></p> <p>The Idaho State Police (ISP) will receive a \$590,941 grant to develop a statewide intelligence database. Small communities in rural Idaho do not have the ability to analyze crime data or engage in information sharing with other agencies throughout the state. ISP will use grant funding to establish a statewide information database combining information from jurisdictions throughout the state. ISP will hire four intelligence analysts for rural offices. These positions would be tasked with analyzing intelligence and criminal data as well as coordinating its dissemination through the database to other state and local Idaho law enforcement agencies.</p>	Category 4
<u>VA</u>	<p><u>Clarke County - \$190,950</u></p> <p>Clarke County, Virginia, in conjunction with the Clarke County Sheriff's Office (CCSO), will receive \$190,950 to give each CCSO deputy the ability to access 1) several databases from his or her police vehicle and 2) critical information in real time from certain cameras.</p> <p>Clarke County will use the funds to provide each CCSO vehicle with a mobile data terminal (MDT), which allow officers to access intelligence databases and certain Internet protocol (IP)-based security cameras. The ability of officers en route to a crime scene to access and input data will greatly improve their</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	effectiveness on arrival. The funds will also be used to hire a project manager, who will generate reports for analysis by the Sheriff.	
<u>AL</u>	<p><u>City of Clanton - \$255,455</u></p> <p>The City of Clanton, Alabama, will receive \$255,455 to enable the Clanton Police Department (CPD) to employ technology upgrades that will allow it to share information and intelligence with other law enforcement agencies.</p> <p>Clanton will use the funds to 1) hire a technology coordinator, 2) purchase equipment and software to implement a mobile data computer system, and 3) enable CPD to share reports, evidence, and records with federal, state, and other local law enforcement agencies. This project also will improve CPD's arrest and clearance rates through information sharing and improved evidence documentation.</p>	Category 4
<u>GU</u>	<p><u>Government of Guam- \$993,037</u></p> <p>The Government of Guam (GoG) will receive \$993,037 to help Guam's National Criminal Information Center (NCIC) Unit provide timely criminal justice information to databases including NCIC 2000, the Integrated Automated Fingerprint Identification System (IAFIS), the National Instant Background Check System (NICS), and, eventually, the National Law Enforcement Teletype System (NLETS).</p> <p>GoG will use its funds to hire six data entry clerks and one administrative assistant for NCIC. Currently, NCIC is understaffed and falling behind in its reporting requirements. This project will also allow Guam to participate in</p>	Category 4

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	NLETS by upgrading its current criminal justice information system so that the judiciary's data will be compatible with NLETS requirements. In addition, NCIC requires data for submission to national databases. Overall, this project will 1) improve criminal justice information reporting, 2) provide unlimited access to NLETS data, 3) improve fingerprint processing, and 4) facilitate interstate and local criminal justice information exchange.	
<u>VA</u>	<p><u>Strategic Applications For Society- \$2,200,000</u></p> <p>Strategic Applications for Society (SAS) will receive a \$2.2 million grant to address the unique challenges of rural jurisdictions with the goals of 1) interdicting illegal drugs and drug manufacturing and distribution networks in collaboration with federal, state, tribal, and local law enforcement agencies; 2) leveraging other enforcement efforts, such as homeland security, traffic safety, drug recognition, human trafficking, and border control in jurisdictions with limited resources; 3) providing access to effective prevention, treatment, and recovery services; 4) combating cybercrime and illicit Internet prescription drug purchases; 5) developing and implementing gang reduction strategies related to drug trafficking in rural areas.</p> <p>SAS will use its funds to conduct onsite rural state assessments in ten states; host a National Rural Methamphetamine Summit to mobilize and equip rural states with best practices and intelligence-led policing approaches; develop and implement state-specific action plans by hiring state coordinators to oversee the process and provide expert training and technical assistance; and develop the Methpedia web site clearinghouse, webinars, and podcasts.</p>	Category 5
<u>VA</u>	<u>The International Association of Chiefs of Police – \$1,761,070</u>	Category 5

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	<p>The International Association of Chiefs of Police (IACP) will receive a \$1,761,070 grant to address the unique challenges of rural jurisdictions through the newly created program called “Leading by Legacy: Leadership and Managerial Training for First Line Supervisors, Command Staff, and Executives from Rural Law Enforcement Agencies.”</p> <p>IACP will use its funds to support the primary goals of this new program, which are to provide technical assistance and to develop and deliver training on law enforcement leadership and management to rural law enforcement agencies (RLEAs) nationwide. Leadership and management training will increase stability in the leadership structure and ultimately enable RLEAs to better identify and implement strategies that prevent and reduce crime. The Leading by Legacy Program will use the preexisting network of partnerships with state and regional chiefs associations to reach potential participants. The training will be available in a variety of formats, including: regional onsite, web-based, CD-ROM-based, and onsite technical assistance.</p>	
<u>CA</u>	<p><u>SEARCH Group Inc – 1,261,132</u></p> <p>SEARCH Group, Inc. (SGI) will receive a \$1,261,132 grant from the U.S. Department of Justice. SGI will use this award to assess and improve the awareness and knowledge of criminal justice practitioners regarding the employment of technology for information sharing.</p> <p>SGI will use its funds to conduct an assessment of the state of technology for rural justice information sharing and will provide onsite technical assistance to Recovery Act (Rural Law Enforcement to Combat Crime and Drugs) grant recipients in fulfillment of their grant goals. Finally, SGI will host four regional</p>	Category 5

FY 2009 Recovery Act Assistance to Rural Law Enforcement Awards

	conferences for rural practitioners regarding the challenges and solutions they face in sharing information.	
<u>FL</u>	<p><u>Institute for Intergovernmental Research - \$700,000</u></p> <p>The Institute for Intergovernmental Research (IIR) will receive a \$700,000 grant to help maximize the capacity of rural law enforcement to combat crime through the use of collaborative strategies and the employment of data-driven enforcement techniques.</p> <p>IIR will use its funds to provide technical assistance to Recovery Act (Assistance to Rural Law Enforcement to Combat Crime and Drugs) grant recipients in fulfillment of their grant goals. In addition, IIR will a) organize and deliver regional conferences for grant recipients focusing on data-driven strategies and b) provide assistance on how to access various existing resources.</p>	Category 5
<u>TN</u>	<p><u>University of Tennessee- \$1,879,247</u></p> <p>The University of Tennessee's (UT) Law Enforcement Innovations Center will receive a \$1,879,247 grant to address the unique challenges of rural jurisdictions through the newly created program called, National Rural Law Enforcement Training Initiative.</p> <p>UT will use its funds to implement a comprehensive training initiative covering a broad range of criminal justice topics and consisting of nine separate training activities. The training activities include the delivery of multiple training events via multiple formats in rural jurisdictions throughout the country.</p>	Category 5
